2022-2023 CHSAA Committees

Each year outstanding personnel are asked to contribute their expertise and time to serve on various standing committees for the Colorado High School Activities Association. Committee members are selected for their expertise representation of geography, classification and leadership in activity administration. Committee work is invaluable to the overall coordination of the numerous activities and programs of our member schools. Responsibilities of the standing committees cover the spectrum of meetings, recommendations for procedural and rule changes, evaluation of on-going programs and service as a liaison between local activity administrators and the CHSAA office.

Coaches and Officials Organizations Committee Participation

The president of each coaches' and officials' association will be invited to attend each sport committee meeting and present an informational agenda item.

Colorado High School Activities Association

Historical Sketch 1921 – 2022

In May of 1921, a group of superintendents and principals met in Boulder, Colorado, and organized the Colorado High School Athletic Conference. The purpose of this organization was to better regulate and develop the interscholastic school athletic program.

There were nine local associations or leagues by the time the first constitution was printed: Northern, North Central, Northeastern, Western Slope, Suburban, Southeastern, Arkansas Valley, South Central and San Juan Basin.

R.W. Truscott, Loveland, was elected temporary president and J.C. Casey, Eaton, temporary secretary. John C. Cory, Principal of South High, Denver, was a member of the first Board of Control and the second president. He resigned because Denver did not see fit to join the Conference at that time. James H. Wilson of Rocky Ford was then elected president to succeed Cory.

In 1924, the Colorado High School Athletic Conference joined the National Federation of State High School (Athletic) Associations and has been an active member ever since.

In 1943, the name of the organization was changed to the Colorado High School Activities Association so that all interscholastic activities might come under its administration and supervision.

The minutes of the Board meetings record vividly the gradual growth of the Association in both members and functions, until it is now in a position to play a major role in the organization, development and supervision of all the many activities carried on among high schools.

In 1924-25 there were nine leagues in the Conference with a total of 80 member schools. Now, there are 10 leagues with 363 member schools in the Colorado High School Activities Association. The CHSAA member schools have a combined enrollment of almost 283,371 high school students. The Junior High/Middle School Auxiliary membership, formed in 2015, represents an additional 70 schools.

Current Commissioner, Michael Krueger and his staff of eight administrators and ten support personnel are responsible for the administration of all sanctioned athletics and activities, educational outreach, fiscal management and as well as state-wide operational efficiencies for member schools and their stakeholders. Luke DeWolfe, Athletic Director at Steamboat Springs High School, is the Association's 63rd Board of Directors President.

CHSAA Hall of Fame

For more than 30 years, the Colorado High School Activities Association Hall of Fame recognizes the people who make up high school activities.

The CHSAA Hall of Fame represents small schools and large, from the Western Slope, Southern Colorado, Eastern Plains, and the Front Range. Although most members are retired, others continue to serve students with enthusiasm.

There are 216 inductees in the CHSAA Hall of Fame representing many years of outstanding leadership, high moral character, outstanding citizenship, and the ideals embodied by the CHSAA.

This policy applies to any student(s) who (a) has a physical or mental impairment that substantially limits a major life activity, or (b) has a record or history of such an impairment, or (c) is regarded as having such an impairment.

Such reasonable accommodations shall provide a disabled student with equally effective access to CHSAA sponsored activities unless the provision of such reasonable accommodation would constitute an undue hardship or would substantially alter essential elements of the activities involved.

Determinations as to whether a student is disabled will be based on state and federal law. Determinations as to whether a student is otherwise qualified will be based on the eligibility requirements of the CHSAA Bylaws and the applicable sports rules. Reasonable accommodations will be provided to qualified students with disabilities in conformity with the requirements of federal and state law.

It is the student's responsibility to self-identify, to provide current and adequate documentation of his/her/their disability, and to request accommodations. Determinations as to whether requested services and requested accommodations are required will be made by the Commissioner, subject to established CHSAA appeals procedures.

The following procedures shall apply:

1. A student with a disability who requests an accommodation must identify him/herself to the principal of his/her/their school. The student must provide documentation that clearly indicates the presence of a disability as defined by state and federal law, the impact of the disability on his/her/their eligibility and/or ability to participate in a CHSAA sponsored activity, and a justification of the need for the requested accommodation. A student who provides a current Individualized Education Plan or a Section 504 Plan shall be deemed to have a disability.

The CLOC is not bound by the review committee's recommendation.

600.75 During the period of probationary membership (which only applies to non-public schools, as defined in 600.1), the applicant school shall meet all the responsibilities and enjoy the privileges and prerogatives of a full member school. The school's probationary membership shall continue for a period of two school years, except that the Board of Directors may, upon recommendation of the CLOC extend such probationary membership for an additional term not to exceed one school year. The CLOC shall also have the

The CHSAA Commissioners will set classifications based on Bylaw 1500.11/1500.21 and present to the CHSAA membership in January of the odd numbered years.

1500.11 The determination as to whether the total number of classifications should be increased is based upon CHSAA sports/activity commissioners' evaluation of the total number of full programs participating in a given sport/activity.

NOTE: In order to add a new event or discipline in a pre-existing sport or activity, the changes must be recommended by the appropriate sports or activity advisory committee, and approved by the Legislative Council.

1500.12 EXCEPTION: Schools having only boys or only girls enrolled shall have their enrollment doubled for the purpose of classification.

1500.2 The Legislative Council shall approve classifications for each activity based on the following policies:

Note: The Classification, Appeals and League Organizing Committee (CLOC) when hearing and voting on appeals will consider the criteria as outlined in this member bylaw. The only objective criteria is to classify all schools by hard non-negotiable, CDE numbers. Our Membership voted (approved) to allow the CLOC Committee to consider and apply additional criteria (per member bylaw) on a school-by-sport specific basis.

Classification of schools shall be based upon the CDE Student Membership Counts to address competitive and classification balance. The CHSAA Staff may also consider other factors to justify placing programs up or placing down (reclassifying). Factors including but not limited to:

- Socio economics of the school's population (Free and Reduced Lunch Rate)
- Demographics of the school's population (includes approved 5th Year Transition Programs Only)
- Participant safety concerns
- Competitive non-success and success
- Competitive history and balance
- Geography
- School's enrollment trend
- School's participation rate in CHSAA sponsored activities (CHSAA Participation Survey)
- Entry or selection process of the school
- Prior year out-of-building student percentage on rosters

1500.22 Four-year high schools shall count their total enrollments, including all ninth graders not housed at the high school.

NOTE: When a new school comes in as a member, and doesn't have all four grades, the enrollment number that will be used for classification purposes shall be in correspondence with the number of grades that they will be offering the first year they are members. For example, if they have grades 9/10/11, their enrollment number should reflect three grades for their classification during that first cycle of membership.

EXCEPTION: A new school may apply to the CLOC for an exception to the classification rules if one or more grades are not yet included at the school or for other extenuating circumstances. The variance may be granted for one or two years.

1500.23 Classification will be in effect for a minimum of two years based on even years.

1500.24 In January of the odd numbered year of the two-year cycle, schools will declare for each activity and for each gender, the classification in which they prefer to compete for the next two-year cycle.

1500.25 Each school shall submit a declaration form indicating the classification in which the school chooses to compete in each activity for the two-year cycle. A school failing to meet the designated deadline shall be subject to late penalties and shall not be permitted to declare a classification other than the one dictated by its enrollment.

In order to change a declaration after the designated deadline, a school shall appear at the February meeting of the CLOC to request an exception to the designated deadline. The school may also request an exception directly from the Legislative Council; such an exception requires a favorable vote of two-thirds of those council members voting.

1500.26 Classification enrollment ranges for the upcoming declaration cycle in all sports will be determined as defined in 1500.21. The Legislative Council, (odd numbered years), will consider the enrollment ranges as recommended by the CHSAA Commissioners and approved by the CLOC.

The classification as declared in 1500.25 will be based on the CDE Student Membership Count described in Bylaw 1500.21.

EXCEPTION 1: A new school may apply to the CLOC for an exception to the classification rules if one or more grades are not yet included at the school or for other extenuating circumstances. The variance may be granted for one or two years.

SCHEDULE (per NFHS calendar)		
December	Even-numbered years	Preliminary CDE numbers are due Week 24
January	Odd-numbered years	Final CDE numbers are due Week 29

1510. CLASSIFICATION, APPEALS AND LEAGUE ORGANIZING COMMITTEE

The Classification, Appeals and League Organizing Committee (CLOC) is a standing committee of the Association which reports to the Legislative Council. The Classification, Appeals and League Organizing Committee's responsibilities are:

(a) Meets twice a year.

- (b) May propose new leagues based on the best interests of member schools and recommend league alignments to the Legislative Council (also see 1610.3).
- (c) Processes requests for the expulsion of league members not meeting reasonable league member expectations. A one-year probationary period must be served by the school in question before the request for expulsion can be considered by the CLOC. If a league member is expelled, the school will play as an independent for the two-year cycle or remaining year of the cycle.

Reasonable league member expectations include, but are not limited to: League meeting attendance, punctual filing of required paperwork, meeting league schedule expectations, hosting contests according to league standards, appropriate sporting behavior from players, coaches and fans, etc.

- (d) Processes appeals to compete in a specific activity in a classification other than dictated by a school's enrollment.
- (e) Review and make a formal recommendation on the sanctioning of any new activity.
- (f) Processes requests based on the following timelines:
 - 1. In odd numbered years, the CHSAA collects school enrollments, establishes the enrollment ranges for all sport/activity classifications of the next two-year cycle, and establishes placement of schools in classifications.
 - 2. February (odd years): Receives appeals related to changes in the league or classification status of individual schools.
 - 3. Spring (odd years): CLOC committee report is presented to the Legislative Council for final approval. Requests not processed by the CLOC shall require a favorable vote of two-thirds of the Legislative Council members voting, even if the 30-day Legislative Council deadline is met.
 - 4. February (even years): The CHSAA staff may present sport and activity adjustments to the CLOC committee for consideration of approval based upon bylaw 1500.21 in extraordinary circumstances. The CHSAA staff may consult the activity committee in making this adjustment prior to presenting to CLOC. Information not available at the CLOC meeting in the previous year must be provided in order to make this adjustment. The CHSAA staff will not consider requests which have already been denied by the CLOC Appeals Committee unless new information is brought forward.

NOTE: Examples of extraordinary circumstances include: a school which has a drastic change in enrollment (increase or decrease) from the initial reporting of their enrollment in an odd year to the even year; or geographic availability of opponents due to programs that have dropped, or schools that have closed.

- 1620.4 Each coach shall be responsible for the contents of the CHSAA Constitution and Bylaws and the pre-season and playoff bulletins. Coaches whose programs are in violation of CHSAA policies or Bylaws shall be subject to appropriate penalties from reprimand to restriction.
- 1620.5 All athletic coaches must annually complete one of the following: The online NFHS Concussion Course or a school organized sports medicine review that includes a head trauma/concussion component and emergency evacuation procedures.
- 1620.6 PENALTY FOR USE OF NON-QUALIFIED COACHES — A school using a coach who does not meet the requirements listed in 1620.2; 1620.3; 1620.5 shall be subject to penalties, to be determined by the Commissioner, which may include forfeiture, restriction, suspension of membership or other appropriate penalties.

Q1: Who is required to complete the CHSAA 1st Year Coaches Course? Are CDE licensed teachers required to take this test?

A1: All individuals who have never coached for a CHSAA member school at the high school level (all levels). Yes, all CDE teachers who are also 1st year high school coaches are also required.

Q2: Does a coach, who completes the 1st Year Coaches Course, quits coaching after 3 years, and then wants to come back and coach, have to take the 1st Year Course again?

A2: No, any coach who have a 3-year lapse does not need to take the 1st Year Coaching Course again. If they have a 4 or more year lapse, they DO have to take the 1st Year Coaching Course again.

Q3: What must a coach who is coaching in CHSAA for the first time do in order to be registered and in compliance with CHSAA Bylaws (regardless of level and rank)? What does a veteran CHSAA coach have to do to be registered and in compliance?

A3: A first year coach will need to complete the CHSAA Bylaws test, 1st Year Coaches Course, First Aid/CPR/AED course, concussion course, and any additional state law requirements. Any veteran coach must complete the CHSAA Bylaws test, first aid/CPR course, annual concussion course, and any additional state law requirements. Additional CHSAA approved courses may be forthcoming.

An assistant coach shall be under contract to the district. It is recognized that assistant coaches may at times during game and practice situations assume a supervisory role with one or more student participants.

1640.1 Each coach/director shall be under contract to the school district in which he/she/they coaches/directs, and may be employed solely as a coach/director. Coaches/Directors shall not receive any pay or other remuneration for coaching/directing, other than the stipulated contract salary or pay scale agreed to by the Board of Education.

1640.11 SOURCE OF SALARIES — All salaries or remuneration for the fulfillment of the school district coaching/director contract must come as direct payment from the employing school district or private school governing body. Acceptance of additional pay or any other remuneration either in money or merchandise from any organization or group outside of the school itself is a violation of this regulation. Recognized outside groups such as "booster" groups may make a donation to the school's or district's general activities fund, but may not specify any monies be utilized for the payment of salaries for Advisor A, Coach B, etc. This regulation, on the other hand, does not prevent school employees from receiving gifts or awards of no intrinsic value.

Q1: Can an outside group (i.e., Booster Club) help fund a specific school/ athletic program?

A1: Yes.

Q2: Can a Booster Club pay a coach directly for his/her/their coach's salary?

A2: No, funds must be given to the school administration for distribution.

1640.12 BOOSTER CLUBS – Booster clubs, athletic/activity foundations, or similar named outside organizations may be formed for the purpose of providing additional financial assistance to specific teams or general athletic/activity programs.

Any benefits provided by the outside organizations, which can include monetary contributions, facility improvements, equipment, transportation, awards, additional team support, etc., are subject to applicable State/Federal Regulations.

All booster club or similar donations to sport specific teams or general athletic/ activity funds by outside organizations must be approved by school and/or district administration.

Each member school is responsible for the activities of its booster clubs and any violations and penalties that result from lack of oversight.

- 1640.13 OTHER PAYMENTS – Personal contributions can be made to the school’s athletic department for consideration of all student-athlete’s needs. Donations or payments made by school personnel to an outside agency on behalf of individual school players or teams is deemed to be an illegal inducement and is prohibited.
- 1640.14 PENALTY FOR VIOLATIONS OF COACH/DIRECTOR CONTRACT – PAY – A school using a coach/director who does not meet the requirements listed in Bylaw 1640 shall be subject to penalties, to be determined by the Commissioner, which may include forfeiture, restriction, probation, suspension of membership or other appropriate penalties.

1650. COACHES REQUIRED TO ATTEND RULES MEETINGS

- 1650.1 All varsity head coaches shall attend annually a CHSAA approved rules clinic in their sport prior to the start of the first interscholastic contest.

Penalty: Coach placed on probation for first offense; restriction for subsequent offenses.

Q1:	Are varsity head coaches required to <u>watch</u> CHSAA approved rules clinics?
A1:	Yes. A varsity head coach will be placed on probation for his/her/their first offense unless he/she/they has attended at least one rules interpretation clinic recognized by the CHSAA in his/her/their sport(s) prior to the start of current season.

Q2:	What happens when a coach violates rule 1650.1?
A2:	On the first violation, the coach will be put on probation. If a second violation occurs, the coach will be put on restriction.

**ARTICLE 17
GENERAL ELIGIBILITY**

1700. PARTICIPATION IS A PRIVILEGE

Participation in interscholastic activities as a part of a school's educational program is a privilege and not a right. Students wishing to participate are required to meet standards of personal behavior and academic performance which are related to school purposes. In this regard, the CHSAA and its member schools may exercise the fullest discretion permitted under law.

1710. GENERAL ELIGIBILITY REQUIREMENTS

A student enrolled in a high school shall be eligible to represent that school in CHSAA-sanctioned interscholastic activities if the student meets the following specific requirements:

- (a) The student is a bona fide undergraduate member of the high school in which he/she/they is enrolled.

EXCEPTION 1: Home based and other students who attend a school without a program, and who meet statutory requirements shall be eligible. Statutory requirements state that a student in a home-based education program must be registered with the school district of participation a minimum of 14 days prior to being considered a home schooled student. Students who do not meet statutory requirements shall be considered ineligible for interscholastic competition, but may practice (provided he/she/they is registered with the school district).

EXCEPTION 2: A student who registers at the beginning of the school year in a non-public home-based educational program may participate in the activities program at a public or private school. In the case of a private school, the student must be accepted for inclusion in the school program by the school and meet any criteria set by that private school.

- (b) In the judgment of the principal of the student's school he/she/they is representative of the school's ideals in matters of citizenship, conduct and sportsmanship.
- (c) PLAN A — During the period of participation, the student must be enrolled in courses which offer, in aggregate, a minimum of 2.5 Academic units of credit as defined by the school's accrediting agency (or school district) per semester and must not be failing more than the equivalent of one-half Academic unit of credit.

EXCEPTION 3 - Students who are seniors in their second semester, and are enrolled full time in college credit approved academic courses, and who do not need additional courses to graduate will be considered full time students and will not need to enroll in additional elective credits to be eligible for participation during that semester.

OR

PLAN B — During the period of participation, the student must be enrolled in courses which offer, in aggregate, a minimum of 2.5 Academic units of credit per semester and must pass a minimum of the equivalent of 2.5 Academic units of credit.

OR

PLAN C — ALTERNATIVE ACADEMIC PROGRAMS – A school with an alternative academic program may request the formation of an alternative academic eligibility standard approved prior to implementation. The eligibility standard for alternative academic programs must be approved by the Commissioner.

NOTE: Factors which may cause the need for approval of said eligibility standard would include, but not be limited to, instructional systems where time of credit completion is variable, systems where no credit is awarded, etc. Concepts to be included in the alternative eligibility programs include the notion that participation is a privilege, students earn the right to participate by meeting acceptable academic expectations, that students must show acceptable academic progress during the immediate past and at the time of participation.

(Schools must notify the Commissioner, in writing, by September 15 of each year if they wish to change their previously declared option.)

Academic eligibility shall be determined by a periodic check of the student's grade in progress from the beginning of the grading period for each class, as determined by the policy of the student's school, to the close of the certification day for the interscholastic activity in question.

In all cases, the periods of eligibility and ineligibility must be equal and at no time may the two groups become eligible on the same day. The school must declare when periodic eligibility will be checked (weekly, bi-monthly, monthly or at the quarter).

- Q1: A student at a school which checks eligibility every two weeks is declared ineligible at the two-week check. If the student meets the academic standard after a week of ineligibility, may he regain eligibility?
- A1: No. Because the school checks eligibility only every two weeks, the period of ineligibility must be two weeks.

- (d) He/she/they must also have been eligible in accordance with paragraph "c" above at the close of his/her/their last prior semester of attendance.

1. During the preceding (18-week grading period) semester of attendance, the student must comply with the following:

In Plan A, the student must not have failed more than the equivalent of one-half Academic units of credit as defined by the school, accrediting agency or school district.

In Plan B, the student must have passed a minimum of 2.5 Academic units of credit during the previous semester.

For purposes of eligibility, a semester is considered to begin on the first pupil contact day as defined by the Department of Education or the member school district, following the completion of the preceding semester. Further, a student will be considered as in attendance if he/she/they has been enrolled for 15 days or has practiced/tried-out for a team at any time during that semester.

- Q1: Can a senior graduate (or obtain a certificate of completion) at the end of the first semester and still participate in spring sports?
- A1: No. In order to participate, seniors must be enrolled in enough Academic credits during the semester of participation and they must have the ability to earn 2.5 Academic credits before graduation.

2. Regaining Eligibility — Students who have not met the academic requirements at the close of a semester may regain academic eligibility per the table below for the first semester.

NOTE: For restricted varsity eligibility, see bylaw 1800.47.

Q2: May a student at a school which conducts no eligibility checks except at the close of the 18-week semester regain eligibility that semester?

A2: No. By conducting no checks, the school makes all students eligible for the entire 18-week semester. Therefore, students must be declared ineligible for an entire semester.

- (e) The number of credits failed or passed during a semester shall be determined from the student's school transcripts and shall include all classes taken during the semester. Fractional credits awarded or not awarded by the school shall be added at the end of each semester to determine eligibility for the succeeding semester.

If, after credits are totaled, and failing credits total more than $\frac{1}{2}$ credit in Plan A (.50) or passing credits total less than 2.5 in Plan B, students will not be eligible according to Paragraphs (d) or (e) of Article 17, Rule 1710 - General Eligibility.

Q3: What credits can be used to accumulate 2.5 Academic units in meeting CHSAA eligibility standards?

A3: Any credit accepted by the school, placed on the student's transcript and used toward meeting graduation requirements. Examples can be correspondence course credit, vocational school credit, college/university credit, online course credit, work study credit, and special education credit.

Q4: A student is ineligible for the first semester because, at the close of the previous semester, he (1) received two F's under Option A; (2) he did not pass 2.5 Academic units under Option B; (3) he did not carry 2.5 Academic units; or (4) after attending 15 days he drops out of school without receiving credit. If he receives passing grades in all five of his classes on the date listed per the Fall Regain Date Table, is the student eligible for the remainder of the semester?

A4: Yes, in 1, 2, 3 and 4, provided he continues to be eligible at each of the school's subsequent periodic (weekly, etc.) grade checks.

Q5: A student begins the semester with the same status of the student in Question 1. On a date listed per the Fall Regain Date Table, the student receives two F's. Does the student remain ineligible for the remainder of the current semester?

A5: Yes.

Example: Course	"A"	.25 credit(F)	—	0
	"B"	.25 credit(F)	—	0
	"C"	.50 credit C	—	.50
	"D"	.50 credit B	—	.50
	"E"	.50 credit B	—	.50
	"F"	.50 credit B	—	.50
	Failed	.50	Passed	2.00

Student is eligible under Option A (did not fail more than .5 Academic units) and is ineligible under Option B (did not pass 2.5 credits).

- (f) A student who drops out of school after having been enrolled and in attendance fifteen days will not be eligible the following semester of his/her/their attendance. If the student attends fifteen days or more during the semester, he/she/they must complete the required number of credits for the whole of that semester to be considered for eligibility during the next semester.

NOTE: If a student attends a school five days, is absent three days, attends seven additional days, and then drops out, the student is charged with a semester's attendance in that the time is counted from the first day of attendance until his/her/their last day of enrollment.

Q6: When is a student considered to be in attendance with regards to item "f"?

A6: A student will be considered as in attendance the prior semester if he/she/they has been enrolled 15 days or if he/she/they has competed in an interscholastic contest.

Q7: A student, on or after the fifteenth day of the semester, withdraws from a class with a passing grade. Does this count as a failure for the balance of the semester in certifying his/her/their present eligibility? Does this count as a failure and a course taken on the semester record used to determine eligibility for the following semester?

A7: The withdrawal with a passing grade does not count as a failure for the balance of the semester. It also does not count as a course taken to determine current or future eligibility. Thus, the student must enroll in another class to meet the requirement of being enrolled in courses which are equivalent to 2.5 Academic units.

Q8: A student, on or after the fifteenth day of the semester withdraws from a class with a failing grade. Does this count as a failure for the balance of the semester in certifying his/her/their present eligibility? Does this count as a failure and a course taken on the semester record used to determine eligibility for the following semester?

A8: Withdrawing with a failing grade counts as a failure and a course taken in determining current and future eligibility.

Q9: If a student withdraws passing or failing and has not been enrolled 15 days in a semester, shall the previous semester grades be used to determine eligibility for the next eligibility period?

A9: Yes.

Q10: What is the single most important factor in determining a student's eligibility?

A10: Credit received toward graduation as indicated on the official school transcript. The school, and not the CHSAA, must determine whether or not a student receives credit. Students participating in athletic and non-athletic activities, however, may not be given special consideration and must be graded on the same basis as all members of the student body.

Q11: A student whose school has selected Option A for academic eligibility passed five classes and failed none in the previous semester, but is currently failing two classes (more than .5 Academic units). Is he/she/they eligible?

A11: No (ineligible for the periodic eligibility check).

Q12: A student whose school has selected Option B passed five classes in the previous semester but is currently passing only four (2.0 Academic units). Is he/she/they eligible?

A12: No (ineligible for the periodic eligibility check).

Q13: A school offers classes which meet for two hours daily and which give credit equivalent to that offered for two courses which meet one hour each day per week. If a student is enrolled in three courses, each offering 1 Academic unit of credit, and passing them, does he/she/they meet the eligibility rule?

A13: Yes.

Q14: A junior high student fails two classes in the second semester of 8th grade. Will the student be eligible when he/she/they enters 9th grade in a 4-year high school the next fall?

A14: Yes.

(g) EXPULSIONS — A student who would be ineligible in any school because of expulsion, denial of admission or negotiated withdrawal may not become eligible for competition at any level by transferring. The period of ineligibility is determined by the school at which the ineligibility occurred. A transfer at the beginning of the school year does not decrease or eliminate the period of ineligibility caused by the expulsion. A student may not transfer schools to avoid expulsion time periods.

Q15: Does a transfer at the beginning of the school year decrease or eliminate the period of ineligibility caused by the expulsion?

A15: No, the period of ineligibility is the same as determined by the original school.

Q16: Can an expelled student immediately regain eligibility by becoming a home school student?

A16: No. A home school student is ineligible for at least the period of expulsion.

NOTE: Student-athletes as a representative of a member school when receiving CHSAA individual awards or team trophies during post-season events including championships, must wear school issued and/or school approved apparel.

1710.1 Completed and signed documentation that parents and participants have been informed, understand and acknowledge basic CHSAA eligibility rules and knowledge of the risk of participation must be on file with the school prior to any student participating in an athletic practice, scrimmage or contest (see CHSAA Competitor's Brochure for reference).

- 1710.2 Completed and signed documentation that parents and participants affirm their responsibility in preventing and reporting hazing and/or bullying must be on file with the school prior to any student participating in an athletic practice, scrimmage, or contest. (see CHSAA Competitor's Brochure for reference).

NOTE: Student-athletes, as a representative of a member school, when receiving CHSAA individual awards or team trophies during post-season events, including championships must wear school issued and/or school approved apparel.

1720. STRICTER STANDARDS

- 1720.1 Participating school districts and schools shall have the right to impose stricter standards for eligibility than those set forth herein. The General Eligibility Requirements are not intended to restrict any school from setting local academic requirements or otherwise exercising control over its curriculum, grading practices and policies regarding the granting of class credit.
- 1720.11 It is recommended that schools imposing local standards of eligibility notify participating students of these standards; however, it shall be the student's duty to inform himself/herself as to such standards and to insure that he/she/they maintains eligibility.
- 1720.2 Exception to the General Eligibility Requirements shall be made only when specific eligibility rules have been established for a particular activity as a part of the Bylaws of the Association. Where specific eligibility rules have been established for a particular activity, and such rules are in conflict with the General Eligibility Rules, the specific rules shall take precedence over the general rules.

1730. ELIGIBILITY LISTS

- 1730.1 Each school must have on file in the CHSAA digital platform an eligibility list of competitors properly vouched for by the principal, verifying the following information for each student listed:
- (a) The student's full name
 - (b) Date of birth
 - (c) The number of semesters previously enrolled since first entering high school
 - (d) Units of credit earned (in fractions, if applicable) toward graduation during the last semester of attendance
 - (e) Units of credit failed (in fractions, if applicable) during last semester of attendance
 - (f) Units of credit enrolled during current semester
 - (g) Where and when last semester of attendance was completed.
- 1730.11 This list must be filed with the Commissioner prior to the Monday of:
- | | |
|---------------|---------|
| Fall Sports | Week 12 |
| Winter Sports | Week 27 |
| Spring Sports | Week 40 |

The list must also be updated in the digital platform after each regain date (including semester).

Q1:	Should all spirit squad members be included on eligibility lists submitted in the CHSAA digital platform?
A1:	Yes.

Q2: Do CHSAA-sanctioned activity participants need to be entered into the CHSAA digital platform?

A2: Yes, all activity and athletic participants need to be listed in the digital platform, but eligibility into the digital platform is not required for activity students.

1730.2 A "Unit of Credit" is the standard "Academic" unit, as defined by that school's accrediting agency (or school district).

1730.3 A competitor must be certified only once each semester.

1740. MAKE-UP WORK

1740.1 No make-up work shall be permitted after the close of the semester and/or the designated periodic eligibility check for the purpose of becoming eligible; and a "condition" (incomplete, unfulfilled outcome, etc.) shall, for the purpose of determining eligibility, count as a failure.

1740.11 This rule is pointed directly at the student who, through his/her/their own lack of effort, fails to pass sufficient work to be eligible for athletics in the succeeding semester, and then asks the opportunity to do make-up work to rectify his/her/their laxity.

1740.2 **MANIFEST HARDSHIP FOR INCOMPLETE** — A student failing to complete work during the normal semester because of a manifest hardship (injury, illness, or other circumstances beyond his/her/their control) may be permitted, at the discretion of his/her/their high school principal, to make up the work within a reasonable time following the student's recovery. A "reasonable time" in most cases would be a like number of days which the student was absent from school. Prior notification must be filed with CHSAA.

1740.3 Dropping out of school for work or financial reasons does not constitute manifest hardship.

1750. SUMMER SCHOOL

1750.1 Summer school courses completed after the close of the second semester may be used to replace any Academic units failed. Equivalent courses taken must be accepted by the school toward graduation. The equivalent credits must be completed by the Monday of Week 9 per NFHS calendar. Credits made up through summer school must be in the same curricular area, be accepted to meet graduation requirements of classes previously failed and be recorded on the student's transcript. A class in an area required for graduation may be taken to replace Academic units failed in an elective class.

Written notification of a student(s) regaining eligibility through summer school must be included with the first semester eligibility report.

Q1: When must a volleyball or softball participant complete a summer school course in order to regain eligibility for the fall semester?

A1: By the Monday of Week 9 per NFHS Calendar. She may not compete in interscholastic competition until credit has been transcribed.

Q2: A junior student fails two classes (English and math) in the first semester of his sophomore year and three classes (history, P.E., and science) in the second semester of his junior year. If he takes and passes the English and math classes failed during summer school, following his sophomore year, may he regain eligibility for the first semester of the next school year?

A2: Yes.

Q3: A student takes summer school and (a) successfully completes the requirements of the course with the passing grade on file in the school on or before the Monday of Week 9; or (b) successfully completes the requirements of the course by the Monday of Week 9, but does not receive the grade until Friday of Week 9; or (c) successfully completes the course on Friday of Week 9. Has the student regained eligibility for fall sports?

A3: (a) Yes; (b) Yes, but not until Friday of Week 9; (c) No.

Q4: May a student who fails three classes (1.5 Academic units) regain credit through summer school?

A4: Yes. Students, through summer school, may make up any number of Academic units previously failed provided the courses are made up in the subject area failed and/or a class for graduation, if an elective credit class was failed.

Q5: A student takes and completes four classes (2.0 Academic units) during the second semester of the school year. He did not take an English class. He then successfully completes and receives credit for an English class taken during summer school. Is he eligible to begin interscholastic competition that fall?

A5: No. This rule specifically states that summer school is intended for make-up of classes failed. This student could become eligible at the start of the second nine-week period.

Q6: May a student take a correspondence course in January to make up a first semester failure to become eligible for the second semester?

A6: No. Make-up work may be done only during the summer if it is to be considered for eligibility.

Q7: Are correspondence courses completed during the summer accepted for summer school credit?

A7: Yes, as long as they are placed on transcripts as credits toward graduation, the policy is common to all students and the class requirements are completed by the Monday of Week 9 per NFHS Calendar.

Q8: Can elective course work be substituted for any other elective?

A8: Yes. If an elective class in Spanish was the failed subject, an elective English course could replace the Spanish elective.

1760.

REGAINING ELIGIBILITY

1760.1 A student who has been ineligible but now regains eligibility for the upcoming semester shall not compete in any interscholastic contest and/or scrimmage until the day following the close of the current semester.

1760.2 A student who has been eligible, but who now becomes ineligible for the upcoming semester, shall not compete in any interscholastic contest and/or scrimmage on the day following the close of the current semester. (NOTE: Students who are now ineligible but will regain eligibility, and students who are now eligible but will lose eligibility, may never be eligible on the same day.)

Q1: A student has been ineligible for the first semester, but has regained eligibility for the second semester. The school calendar adopted by the Board of Education specifies that the semester ends on a Friday. Is the student eligible to compete on (a) Friday night; or (b) Saturday night?

A1: (a) No. (b) Yes. (In recognition of the fact that in many schools grades are not turned in until several days following the close of the semester, it is possible that the student about to become ineligible could continue competing until the grades are turned in by the teacher to the administration. In cases in which the potential ineligibles continue to compete, no students who will become eligible may compete until the grades are turned in. Again, the potential ineligibles and eligibles may never be eligible on the same day.)

Q2: A student has been ineligible for the second semester, but will become eligible for the first semester of the next school year. When may the student compete in an interscholastic contest?

A2: The student may compete interscholastically on the first day for interscholastic competition specified in the specific sport's Bylaws. The student is not required to attend classes in the first semester in order to compete in the fall sports season.

Q3: A student has been eligible during the first semester but will become ineligible for the second semester. The semester ends on Friday. (a) May he/she/they play on Friday night? (b) Saturday night?

A3: (a) Yes. (b) No. (See A1.)

1770.

AGE

1770.1 AGE REQUIREMENTS — A student is ineligible to enter interscholastic athletic competition if the date of birth is prior to August 1, 2003. The student may not participate in the upcoming school year if he/she/they reaches the 19th birthday prior to August 1.

EXCEPTION: A student with a disability may be granted an exception for all or a part of a school year under the following conditions:

- The disability is defined in applicable federal and state law
- The disabling condition caused the student to exceed the age/semester requirement
- The student experienced a delayed start in his/her/their educational progression prior to the eighth-grade due to the disabling condition

1. The Commissioner shall determine if the student meets the requirements for an exception stated above and, if so, upon examination of all documents and consideration of the student's individual circumstances and the purposes for this rule, may grant approval of the exception for any part of the school year. In making this decision, the Commissioner shall consider the student's age, size, and athletic ability, and whether granting the exception would be unfair to other students.
2. The principal/designee of the school, on behalf of the student, presents a formal request to the Commissioner with all necessary support materials.

Under no condition may approval be granted for participation in more than four seasons in a specific activity or if the student requires an exception to the consecutive or total semester rule.

Q1: Is the inability to speak English due to a student's country of origin considered a disability under this rule?

A1: No.

1770.2 SEMESTERS OF ATTENDANCE — Any student who has attended more than eight semesters (if he/she/they began high school as a ninth grader) or six semesters (if he/she/they began high school as a tenth grader) is ineligible for high school athletics, except that a student who is otherwise eligible may complete a season's participation in a winter sport begun in his eighth semester.

1770.3 **EXCEPTION:** Bylaws 1770.1 (age) and 1770.2 (semesters) may be appealed to the Commissioner in cases involving documented hardships supported by evidence acceptable to the Commissioner, the burden of proof to rest with the school requesting the hardship waiver. **Waivers cannot be filed for students who are in attendance and have the potential to earn credits**, for students who due to illness or injuries are unable to compete but are able to attend school with the potential to earn credits or have failed to earn sufficient credits needed to graduate in eight consecutive semesters due to an expulsion.

Q1: A student enters high school as a freshman but does not compete during his/her/their first year. The student competes as a sophomore, then drops out of school to work during what would have been his/her/their junior year. The next fall, the student returns to school and competes while completing the school year. When the student returns for the next year (5th year of high school), will he/she/they be eligible for interscholastic competition?

A1: No. When the student entered high school, he/she/they was entitled to eight consecutive semesters of eligibility (provided he/she/they meets all other eligibility standards). Whether or not he/she/they competed during a semester is not relevant. Since the semesters must be consecutive, dropping out of school for a year has the same effect as being in school and not competing.

Q2: A student transfers to a school which, as a condition of entry, requires him to repeat a grade. Is the student entitled to an additional year of eligibility?

A2: No. The consecutive semester rule still applies.

Q3: A student begins high school as a ninth grader, is in attendance for six consecutive semesters through junior year, takes a year off (for any reason), and then re-enrolls to complete their senior year. Is this student eligible for interscholastic competition?

A3: No. The eight semesters of attendance would begin when they enter high school. In this example, when the student re-enrolls, it would be he/she/they ninth and tenth semesters of enrollment, making them ineligible for interscholastic competition.

1770.31 Enrollment and attendance for 15 days or participation in a practice/tryout/scrimmage or in a contest shall constitute a semester's attendance.

1770.4 ATTENDS CLASS — A pupil who attends one class one day after enrolling is considered to be in attendance until officially dropped from the school register. Attending a class the opening day of school, which is called for the purpose of organization or class assignment, counts as attendance.

1770.5 PARTICIPATION IN CONTEST — Participation in an interscholastic contest for any length of time shall constitute a season's participation.

Q1: Does the participation definition include a practice/tryout/scrimmage?

A1: Yes. Students attendance at all of the above demonstrates a commitment to making that team.

1770.6 FOUR SEASONS — No high school student shall participate in more than four seasons in any one sport (if he/she/they began high school as a 9th grader) or three seasons (if he/she/they began high school as a 10th grader).

Transfer students who played a sport at a previous school in a different season during the same school year shall not be eligible for a second season in the same sport during that same school year unless there is a bona fide family move from another state. Under these circumstances, the student will be eligible for a maximum of five seasons and may play two seasons in a school year only once.

Students who transfer from another state may complete a season currently in progress in Colorado.

A student who has competed in a sport in Colorado may not gain an additional season of competition by moving out of state and returning to Colorado.

Q1: A school district which specifies that it is a four-year high school houses its 10th, 11th and 12th grades in one building, and its 9th grade high school students in another building along with 7th and 8th graders. Are the 9th graders, even though housed in another building, subject to all CHSAA, league and district eligibility standards?

A1: Yes.

Q2: A student competes in Colorado softball for the first time in the fall of her junior year, then moves to Texas and competes in their spring softball season. She and her family return to Colorado in the fall of her senior year. Is she eligible to compete in softball?

Q2: No.

- 1780.1 No pupil shall participate in formal practice or represent his/her/their school in interscholastic athletics until there is a statement on file with the principal or athletic director signed by his/her/their parents or legal guardian and a practitioner licensed in the United States to perform sports physicals certifying that: (a) he/she/they has passed an adequate physical examination within the past 365 calendar days; (b) that in the opinion of the examining licensed practitioner, he/she/they is physically fit to participate in high school athletics; and (c) that he/she/they has the consent of his/her/their parents or legal guardian to participate.

Q1: Who are some people licensed to perform physicals?

A1: MD's, DO's, Nurse Practitioners, Physician Assistants and Doctors of Chiropractic who are School Physical Certified (DC, Spc.).

It is recommended that the CHSAA "Physical Examination & Parental Consent for Athletic Participation" be used for this process.

PENALTY — Schools which violate this regulation will be immediately placed on a minimum of probation until the school has provided the Commissioner with a detailed report of the incident(s) and administrative procedures have been put in place to ensure no repeat of the violation. A second violation of this regulation will result in the school being placed on restriction for a minimum of one season from state qualifying competition.

Q2: Because of religious beliefs, a student will not take a physical examination. May he/she/they compete in interscholastic competition?

A2: No. The requirement of a physical examination signed by a physician, nurse practitioner or physician assistant is designed to protect the athlete and school personnel. There are no requirements for treatment. This is no different, as an example, than requirements for anyone who applies for a pilot's license.

Q3: What is the definition of a "practicing physician?"

A3: A person qualified under Colorado state statutes to practice medicine in Colorado. In the case of an out-of-state transfer, the student must have met the requirements specified in the statutes of the previous state.

Q4: May a chiropractor sign the physical form?

A4: Yes, if they are certified to perform school physicals (DC, Spc.), and on file with the CHSAA.

Q5: May a doctor of osteopathic medicine, nurse practitioner or physician assistant sign the pre-participation physical form?

A5: Yes, if licensed by the State of Colorado (as a D.O.) to practice medicine.

Q6: May a student practice without having a valid physical form on file with the school?

A6: No. The purpose of the requirement is to protect both the student and the school.

1780.11 It is strongly recommended by the Colorado Department of Health that all persons competing in interscholastic activities show record of a measles shot within the last 10 years. It is also highly recommended that individuals participating in athletic events have current tetanus boosters. Tetanus boosters are recommended every 10 years throughout life. Boosters are recommended at the time of major injury if more than five years have elapsed since the last booster.

REMOVAL FOR ILLNESS OR INJURY

1780.2 If at any time during participation, a licensed health care provider removes an athlete from participation because of an illness and/or injury, other than a head injury (please see Bylaw 1780.21), the athlete must have a written release from an approved licensed health care provider before participating again.

Q1: Who are some people licensed to release students who have been removed due to illness and/or injury, other than a head injury (please see Bylaw 1780.21)?

A1: MD's, DO's, Nurse Practitioners, Physician Assistants and Doctors of Chiropractic who are School Physical Certified (DC, Spc.).

The release may be satisfied if upon removal the approved licensed health care provider specifies the duration of the student's restriction from participation.

Q2: During a contest a student is injured and removed from participation by a doctor. When may the student return to practice or competition?

A2: The student may return when he/she/they has presented a written statement, from the approved list of health care providers that he/she/they is medically fit to participate.

REMOVAL FOR CONCUSSION

1780.21 If at any time during participation (practice or contest), a student-athlete is removed from participation due to concussion, the student-athlete must obtain written permission to start the Return-to-Play protocol from the approved list of licensed health care providers. A school or school district may impose stricter standards.

Q1: Who is approved to release a student/athlete to return to play after a concussion?

A1: The approved listing of Licensed Health Care Provider are ONLY: Doctor of Medicine, Doctor of Osteopathic Medicine, Licensed Nurse Practitioner, Licensed Physician Assistant, or Licensed Doctor of Psychology with Training in Neuropsychology or Concussion Evaluation and Management or licensed physical therapist with training in Pediatric Neurology or concussion evaluation and management.

Q2: What is the Return-to-Play protocol?

A2: Student athletes must adhere to the concussion management guidelines, where every student/athlete who has received a concussion must go through the Return-to-Play protocol before resuming cognitive and physical activity with the help of doctors, coaches, athletic trainers, and teachers. For more information, please refer to the current statement on Concussion in Sport and the gradual Return-to-Play (RTP) guidelines on CHSAANow.com under sports medicine.

Q3: During a contest a student is injured and prohibited from returning to play by a coach, athletic trainer or other Licensed Health Care Provider for showing signs and symptoms of a concussion or brain injury. When may the student return to practice or competition?

A3: The student may begin the Return to Play protocol when he/she/they has presented a written statement from the approved list of licensed health care providers that he/she/they is medically fit to participate.

1780.3 A student with blood borne pathogens such as HIV or Hepatitis B shall be eligible to participate in all CHSAA sanctioned activities when CHSAA recommended precautions are in effect. Bleeding must be stopped and open wounds must be covered before a student competes.

1790.

COOPERATIVE PROGRAMS

1790.1 TEAM SPORT/ACTIVITY COOPERATIVE PROGRAMS (competing as a team and scoring points for one team in any CHSAA sport) — Cooperative sponsorship of a CHSAA-sanctioned activity by two or more member schools may be approved by a CHSAA Assistant Commissioner if the following conditions are met:

1. A school wanting to form a voluntary cooperative athletic program must attempt to form this co-op with the closest school.
2. If the closest school does not choose to form a voluntary cooperative program, a co-op may be formed with the next nearest school until a voluntary co-op is formed. The nearest school may or may not be in a contiguous district.
3. The combined enrollments (based on the enrollment count year) of the schools shall not exceed the enrollment LIMITATION of the classification in which the schools will compete.

NOTE: When extenuating circumstances exist which make application of the combined enrollment requirement unreasonable, a school may petition the Commissioner for an exception.

4. The requesting schools must provide documentation verifying the inability of one or both of the schools to conduct the activity.
5. The schools must certify that implementation of a cooperative activity will not reduce the academic time available to participating students.
6. If participating co-op schools are from different school districts, the Board of Education of each participating member public school, or the governing board of each participating private school shall jointly make application to the Assistant Commissioner. The application must include a resolution (signed by the president or chairperson) from each board of education or governing board supporting and authorizing the filing of the application.
7. If the participating co-op schools are from the same district, the district superintendent shall authorize the filing of the application.
8. A memorandum of agreement shall be adopted by the board of education or governing board of separate school districts or the superintendent if participating schools are from the same district. The memorandum shall be for a two year competitive cycle and shall provide for but not be limited to:
 - a. Funding of the activity
 - b. Transportation of participants
 - c. Staffing and supervision of the activity
 - d. Use of facilities
 - e. Administration of the activity
 - f. Procedure for dissolution of the agreement.
 - g. The name of the team shall be declared at time of application.
9. All applications must be submitted in writing to the CHSAA Assistant Commissioner prior to the start of the competitive season for the sports involved.
10. The Colorado School for the Deaf and the Blind (CSDB) may develop a unique cooperative program for sensory impaired (deaf/hearing impaired, blind/visually impaired) students in cooperation with schools in the Colorado Springs region under the following conditions:
 - a. Any hearing or visually handicapped student residing in the Colorado Springs area who could benefit from the opportunity of participating in competitive sports with similar peers, may co-op with CSDB.
 - b. School Board approval must be gained from each participating district.
 - c. Students will be treated like any other transfer students if they leave CSDB and return to their home school to compete.
 - d. Classification shall be determined by adding CSDB's eligible students and the number of cooperating student athletes.

11. Cooperatives may not be dissolved in the middle of a competitive cycle.

<p>Q1: Without a formal co-op, is a program recognized as a district team?</p> <p>A1: No. A formal request must be approved for an individual school to be recognized as a district co-op.</p>
--

RELATED Bylaw 5160.4 also deals with co-op programs.

TRANSFER

1800.

TRANSFER

Colorado School Choice: The CHSAA supports school choice in academic pursuits and encourages its student participants to enhance their academic achievement. In concert with this approach, the Association's philosophy addresses the establishment of a fair playing field for all student athletes. A student entering high school for the first time shall be eligible for all interscholastic athletic competition.

NOTE: Any waiver submitted that contains legal guardian references must have the appropriate court signed legal documentation of that guardianship before the waiver will be considered.

<p>Q1: What documents must be submitted for consideration in a change of guardianship?</p> <p>A1: A court or judge order, social services/child-protective placements, and emergency removal by law enforcement. Notarized statements or Power of Attorney do not meet the member bylaw standard for varsity approved guardianship change.</p>
--

- 1800.1 A student who establishes his/her/their high school eligibility at any high school and subsequently transfers, will be ineligible for varsity competition for 365 days from the date of their transfer, in the sports they participated in a practice, contest, scrimmage or foundation game during the last 365 days.

NOTE: A school in this instance refers to a home school, charter school, online school or in-seat instruction.

NOTE: The CHSAA official start date of the season establishes student's eligibility.

<p>Q1: What is considered a transfer student's "date of transfer"?</p> <p>A1: The date of enrollment at the new school.</p>

Q2: If a student participates in an alternative high school league, charter school league, and/or parochial school league, does this bylaw apply?

A2: Yes.

Q3: If an athlete participated in a sport at a high school during a season when it is the primary season for that school, is the athlete eligible?

A3: No.

Q4: Is attendance at a practice considered a try-out?

A4: Yes. Attending a practice at any level is considered a try-out or evaluative period.

NOTE: According to Bylaw 1770.61, no high school student shall participate in more than four seasons in any one sport.

1800.2 The transfer rule addresses athletic eligibility only as it relates to transfer between schools. Rules related to age, semesters, academic requirements and other CHSAA Bylaws may result in an eligible transfer being declared ineligible.

EXCEPTION: When a receiving school experiences a significant delay in receiving transfer documentation from a sending school, a 9-C waiver may be submitted for transfer students pending a completed transfer waiver form to enable participation at the sub-varsity or below level if the receiving school administration has verified the following: age, semesters, academic eligibility, continuous years of academic enrollment. For foreign students you must verify that no professional participation occurred.

Clarifying Statement: the definition of transfer shall be any change of schools by a student participant for academic or participatory reasons. This includes all students who have established their eligibility at: 1) the school they are enrolled in, 2) a school they are playing for because their school of enrollment did not offer that activity and they are participating under state statute, or 3) the student is a home-based student and has established his/her/their athletic eligibility under state statute.

Q1: What is considered a transfer student's "date of transfer"?

A1: The date of enrollment at the new school.

1800.21 Private school attendance boundaries will be defined, for admission purposes, by the public school district in which the private school is physically located.

BONA FIDE MOVE

1800.3 A bona fide family move to a residence that requires a transfer to a school in that school's attendance area and/or a new school district, verified by the receiving school, will permit full transfer eligibility.

- (a) A bona fide family move means a permanent change in the family's legal place of domicile. The legal place of domicile is that place in which the family's habitation is fixed and in which

the student's custodial parent or legal guardian has the present intention to reside permanently. A bona fide family move has not occurred unless and until the student's custodial parent or legal guardian, the student, and the student's family have abandoned the immediately preceding place of domicile and have no present intention to return to that place of domicile.

- (b) In determining whether a bona fide family move has occurred, the Commissioner may consider all the circumstances in his/her/their discretion. Examples of circumstances that may be relevant include: changes in employment or business activities that require the family to move; dated and documented family health or mitigating circumstances that require the family to move; the custodial parents or legal guardian's MLS sale of property, official permanent disconnect of residential services aligned with move date, income tax, and similar indicators of legal residence; the terms of ownership, the existence of other family residences; the location of the family's personal property; and the amount of time actually spent at the new residence. These examples are not a complete list of circumstances that the Commissioner may consider, nor is the Commissioner required to give more or less weight to any of these examples in making a decision.
- (c) Transfers that are motivated by athletics per the sending Athletic Director's statements, the parent/legal guardian of the transfer have the burden of proof to provide clear and convincing evidence that the transfer was not motivated by varsity considerations or athletics.
- (d) If a student transfers to a school where his/her/their previous coach is a coach of the current school team, that move will be deemed motivated by athletic consideration. Under provision of this rule, the coach may be a former school coach or a non-school coach.

As used in this Rule, the term "coach" includes any person who coaches, volunteers (regardless of compensation) or assists in any capacity with the coaching or training of the school or non-school team.

- (e) If the family, directly or indirectly, retains ownership of the former place of domicile after the move, it is presumed that they have not made a bona fide family move, and that presumption must be rebutted by clear and convincing evidence.

Q1: If a student makes a bona fide move and enrolls in a new school, and is subsequently waitlisted by that school, will they be eligible to transfer once they are removed off of the waitlist of the new school?

A1: Yes, with transfer paperwork completed including the dated and official school application and the school acceptance letter uploaded in the platform.

Q2: Does listing a house for sale meet the requirement for a bona fide family move?

A2: No, listing a house for sale does not guarantee that a permanent move has been made or is even imminent.

Q3: What is the transfer eligibility for a student who makes a family move from School District A to School District B, then enrolls in a different school in School District A?

A3: This would not meet the definition of a bona fide family move since the student selected a different school back in the former school district and not a school in the attendance area in which he resides or in the new school district. The student would be sub-varsity eligible for 365 days from the date of the transfer.

Q3: May a student play a second season of the same sport in the same school year following a bona fide family move?

A3: Yes – See CHSAA Bylaw 1770.61.

Q4: A student transfers from School A to School B following a move from his parents' house to his grandparents' domicile, which has always been in School B's attendance area. Following the correct legal procedures, the grandparents become the student's legal guardian. Is the student eligible at School B?

A4: No. There was no bona fide family move, nor did the student move with his/her/their parents or guardian.

Q5: Does the transfer rule affect activities such as music, speech, esports and student council?

A5: No. See Bylaws 4710.1, 4800.1 and 4920.1.

Q6: When should a parent/school submit a bona fide move waiver under member bylaw 1800.3?

A6: Parent/school should submit a bona fide move waiver when they have the following documentation to indicate a permanent change of the family domicile: (1) A dated and official sale, pending sale, or lease termination of their primary “previous” address. (2) If a lease termination, they must also provide (upload) a dated and official service or utility disconnect and/or final bill aligned with address and parental name displayed. If these documents aren't available then this is not a bona fide move under member bylaw 1800.3 then the waiver should be submitted as a hardship with all support documentation of the circumstances.

Q7: Should a parent upload their driver license, bank statements, car registration, or additional documentation other than the documentation stated in Q1?

A7: No, these documents are not verifiable for a permanent change of a primary resident under bylaw 1800.3, but they can be provided for consideration with explanation for review under a hardship waiver.

NOTE: Student and family situations dictate that transfers of an established permanent change of domicile will occur. The purpose of bylaw 1800.3 is to provide immediate varsity eligibility when documentation and circumstances indicate that the transfer of academics was required. All other scenarios of “why” a student or family has changed residences is

addressed specifically under bylaw Article 1800. Transfer. If student/family do not meet any of the designated criteria for a transfer, then parent/school should submit a hardship with documentation and explanation.

ATHLETIC TRANSFER

1800.4 Any transfer substantially motivated by athletic considerations will cause the student to be ineligible for varsity competition for 365 days from the date of the transfer in any sports(s) they participated in during the last 365 days.

EXCEPTION: A student transferring, moving or for any reason changing to a new school where the student's non-school coach is also a coach of the school team, is considered to be attending for athletic purposes. The student, as a result of this transfer, will be ineligible for varsity competition for one calendar year from the date of the transfer in any sport(s) they participated in during the twelve months prior to the transfer. As used in this Rule, the term "coach" includes any person who coaches, volunteers (regardless of compensation) or assists in any capacity with the coaching or training of the school or non-school team.

NOTE: For purposes of this Bylaw and its exceptions, no personal relationship or one-on-one/group coaching or individual contact is required for application of this rule. If a coach has any standing with the outside team/organization/business, that coach is considered a coach of that non-school sports team.

1800.41 SUB-VARSITY ELIGIBILITY - A student will be granted sub-varsity eligibility by the Commissioner upon submittal of a restricted waiver request signed by the principals of the sending and receiving schools. Waivers may be considered based on a student's lack of opportunity to participate at a sub-varsity level.

NOTE: Transfer students at schools where no sub-varsity level teams exist may be given varsity eligibility for a portion of the regular season by the Commissioner. No playoff eligibility will be granted.

1800.42 NON-PARTICIPATION - A student who has not participated in a practice/tryout, scrimmage, contest, or foundation game in a specific sport at any level (varsity, junior varsity, sophomore, and freshman) during the 365 days preceding the date of transfer shall have varsity eligibility at the receiving school in that specific sport at all levels of competition.

1800.43 RETURN TO ORIGINAL SCHOOL - A student who participates in a sport (practice/tryout, scrimmage, contest, foundation game) at School A and subsequently transfers to School B and participates in any sport at School B, will be sub-varsity eligible only upon their return to School A in any sports they have participated in during the last 365 days at either School A or School B.

NOTE: Participation is defined as an interscholastic practice, contest, scrimmage, or foundation game.

Q1:	A student plays boys' soccer as a freshman at School A. After the first semester, he transfers to School B and plays baseball. Over the summer, he returns to School A. (1) What is his eligibility for boys soccer at School A?; (2) What is his eligibility for cross country at School A?; (3) What is his eligibility for baseball at School A?
A1:	(1) Sub-varsity eligibility only for boys soccer for 365 days from his date of transfer; (2) Varsity eligibility for cross country at School A since he hasn't participated in the sport in the last 365 days; (3) Sub-varsity eligibility only for baseball for 365 days from his date of transfer.

1800.44 **BROKEN HOME** - A student of a broken home will be exempt from the transfer rule for the first move in high school from one parent to the other.

NOTE: The exception will exist only if it is determined by either school that the move is not athletically motivated. A waiver must be filed and approved prior to competition.

Q1:	What is the definition of a "broken home"?
A1:	A broken home for the purposes of Bylaw 1800.44, is defined as a permanent and finalized dissolution of a marriage by court order.

Q2:	For the purposes of Bylaw 1800.44, to which school may a student transfer if this is the first transfer while in high school in a broken home?
A2:	The student may transfer to the school in the attendance area in which the parent resides.

1800.45 **BOARDING SCHOOL** - Any student who transfers to become a full-time resident of a Colorado 24-hour boarding school (as a duly licensed school providing lodging and meals) in a community, district or state other than where he/she/they has resided with his/her/their parent(s) or guardians, has varsity eligibility on the first such transfer, but all transfer rule requirements shall apply on any subsequent transfer.

1800.46 **TRANSFER PURSUANT TO IEP** - A student who has been identified as a student with a disability who transfers to a member school to comply with a specific requirement in his/her/their Individualized Education Plan (IEP) has varsity eligibility at the receiving school. A waiver must be filed and approved prior to competition.

NOTE: The burden of proof for the previous school's failure to meet IEP or educational standards is on the parents/guardians of the transferring student. For example, transcripts, documented meetings, dates with school, staffing or testing.

1800.47 **RESTRICTED VARSITY ELIGIBILITY** - The Appeals Committee and/or Commissioner may grant restricted varsity eligibility during the regular season only to a student athlete that transfers to a school without a sub-varsity program/schedule or a senior transfer student participating in their final year of eligibility.

NOTE: Any transfer deemed to be motivated by athletic reasons (Bylaw 1800.4) will not be eligible for restricted varsity eligibility.

RESTRICTED VARSITY ELIGIBILITY

The following regular-season eligibility would be approved through the waiver process. Eligibility aligns with academic eligibility and ends at the conclusion of the regular season.

Boys' Golf	Week 8
Softball	Week 9
Boys' Tennis, Cross Country	Week 10
Football, Spirit, Boys' Soccer, Girls' Volleyball, Field Hockey, & Gymnastics	Week 11

Q1: A student attends School A as a freshman and competes in three sports. She begins her sophomore year at School A but in December transfers to School B. At School B she competes in no practices, interscholastic scrimmages or contests in any sport. In March she returns to School A. What is her eligibility status?

A1: Full eligibility in all sports. A student transferring from School A to B to A without practice, or interscholastic competition at B will always retain varsity eligibility regardless of when the student re-enters School A.

Q2: A student competes in volleyball and track at School A as a 9th grader. As a 10th grader the student transfers from School A to B in January without a family move. What is the student's status in track and volleyball?

QA: The student will be ineligible for varsity competition for 365 days from the date of the

Q3: A student begins 9th grade attending her home public high school, a CHSAA member school. In 10th grade, she transfers to an out-of-state boarding school where she competes in basketball. In 11th grade, she leaves the boarding school at a time other than the beginning of the school year and (a) returns to her home public school; or (b) enrolls at a boarding school which is a CHSAA member. Is she eligible for varsity basketball competition?

A3: No in both (a) and (b). Although she transferred from a non-member school, the student began her eligibility at a member school.

Q4: A student plays football, basketball and baseball his freshmen year at School A. After football his sophomore year at School A, he transfers to School B without a family move. What is his eligibility at School B?

A4: He will have sub-varsity eligibility for 365 days from the date of transfer in basketball, baseball, and football.

HARDSHIP

1800.5 When the definition of a hardship has been met, the Commissioner may grant varsity eligibility pursuant to the provisions of Article 25 of these Bylaws.

1800.51 "Hardship" means a documented situation, condition or event which must impose a severe, non-athletic burden upon the student or his/her/their family and require a transfer of schools. This does not include a personal or initial choice after open enrollment and/or participation. The Commissioner shall have broad discretion in applying this standard to specific cases. He/she/they may take into consideration not only the needs of the student and family directly involved, but also the best interest of member schools and interscholastic athletics/activities generally as he/she/they understands those interests.

1800.52 All transfer waiver applications shall be processed on forms approved by the CHSAA and in accordance with the following procedures:

1. A transfer waiver shall first be submitted to the principals/or designees at the student's sending and receiving schools. If either principal/or designee disapproves of the waiver, he/she/they shall state his/her/their reasons in writing.
2. The transfer waiver, with the recommendations of the principals/or designees, shall then be submitted to the receiving school's league for a vote.
3. The recommendation of the principals/or designees and the league and all other information that the applicant wished to be considered in support of the waiver application shall be submitted in writing to the Commissioner. The burden of proof to establish a hardship shall be upon the applicant.
4. The Commissioner or his/her/their designee may conduct additional investigations as he/she/they deems necessary. The application and any additional information gathered by the Commissioner or his/her/their designee shall constitute the record of the proceeding. The Commissioner will make a timely written decision based on the information in the record.
5. The Commissioner's decision may be appealed pursuant to Article 25 of these bylaws.
6. The decision of the Commissioner shall be upheld unless it is shown by clear and convincing evidence in the record to be arbitrary or capricious.
7. Transfer waivers cannot be approved for a school transfer found to be substantially motivated by athletic considerations.
8. The following situations are not considered under the definition of hardship: reduction or loss of personal income after choice, inability to pay tuition after choice, transportation, undocumented/timelines statements of bullying and academic program comparisons.

NOTE: Circumstances that require an immediate transfer due to safety, legal, court placement or documented availability and plan for academic services must provide adequate documentation.

Academic transfers where parents and/or the student don't believe the current school met the student's needs will require a transcript submission and a specialized plan as documented by the administration.

Medical waivers/**bullying** accusations will require a dated timeline of school and parental intervention prior to transfer. Medical letters from outside entities are secondary to a parental timeline that demonstrates communication and/or assessment with school personnel, establishing a plan to address the student's social and/or emotional needs prior to the transfer. This timeline must include meeting dates and the names of school service specialist, such as a counselor, special education personnel, dean, athletic director, crisis management team or other administrators who worked with the parents and student prior to transfer.

Please note medical letters from outside entities requesting varsity eligibility for a student's mental well-being are reviewed as athletic in principle.

How may a student who has suffered a hardship gain eligibility?

A1: A school may file a waiver of a CHSAA Bylaw on behalf of the student if a hardship exists. The waiver would be sent to the sending school and be acted upon by the league and the Commissioner. The student may not compete until the waiver is approved by the Commissioner.

1800.53 No transfer waiver may be granted that would cause a student who is ineligible in the sending school to become eligible at the receiving school.

Q1: What does arbitrary and capricious mean?

A1: A decision is "arbitrary and capricious" only if the committee finds: (1) that the Commissioner neglected or refused to use reasonable diligence to obtain necessary information; (2) failed to consider the information honestly; or (3) made the decision in such a manner as to indicate clearly that it was based on conclusions from the evidence which reasonable persons fairly and honestly considering the evidence could not reach.

1800.54 A. The CHSAA requires that all information provided in regard to any aspect of the eligibility of a student must be true, correct, accurate, complete and/or not false or fraudulent.

B. Penalty for providing incorrect, inaccurate, incomplete or false or fraudulent information:

1. If it is discovered that any parent(s)/guardian(s)/caregiver or student has provided incorrect, inaccurate, incomplete or false information in regards to any aspect of eligibility status on behalf of a student, that student is subject to immediate ineligibility for CHSAA competition at any level in any sport for a period of up to 2 calendar years-from the

date the determination was made that incorrect, inaccurate, incomplete or false information was provided.

2. Any contests in which a student or students participated based on incorrect, inaccurate, incomplete or false information or fraudulent practices regarding eligibility status may be forfeited according to the guidelines set in accord to the bylaws.
3. Teams
 - a. If it is determined that someone associated with a school (including, but not limited to a coach) knowingly participates in either providing incorrect, inaccurate, incomplete or false information or using fraud or knowingly allows others to do so, in an attempt to have a team qualify for postseason, that team and coach will be immediately placed on restriction.
 - b. Any contest in which that team has participated based on incorrect, inaccurate, incomplete or false information or fraud may be forfeited according to the CHSAA bylaws.
4. School Personnel Involvement
 - a. If any school personnel (including but not limited to a coach) knowingly participates in either providing incorrect, inaccurate, incomplete or false information or allowing others to gain favorable eligibility status for a student, or team information to meet qualification standards for participation in any contest including playoffs or championships, sanctions may be imposed on the school including but not limited to: probationary status, prohibitions against playoff participation, forfeitures, revoking of CHSAA membership, etc.

1810.	MARRIED STATUS
-------	----------------

1810.1	Unless a change in domicile is specifically related to a recent marriage, married students must conform to the same transfer regulations as other students.
--------	---

1810.2	Married students who establish a separate residence from their parents will be eligible in the area in which they reside.
--------	---

NOTE: A waiver of transfer must be submitted and approved.

Q1:	A student marries and moves with her husband from the attendance area of School A (where she competed) to that of School B. Is she eligible to compete at School B?
A1:	Yes. A married athlete is eligible to participate at a school in the area in which he/she/they establishes a domicile.

Q2: Under what circumstances would a transferred, married student be eligible?

A2: The transfer must be directly related to marriage and must take place at the approximate time of the marriage.

1820. EMANCIPATED STUDENTS

- 1820.1 Emancipated students must comply with the same transfer rules as other students.
- 1820.2 Emancipated students may sign all documents relative to their interscholastic participation, if supported by appropriate legal documentation.

1830. DISTRICT BOUNDARY CHANGES

In situations in which district boundaries are changed because of circumstances such as annexations, acts of God, or Board rulings which affect all students in a specific area similarly, the Commissioner may, with the approval of the Board of Directors, waive the requirements of [Article 18](#).

1840. EXPULSION/INELIGIBLE TRANSFER

- 1840.1 A student who would be ineligible in any school may not become eligible for competition at any level by transferring. The period of ineligibility is determined by the school at which the ineligibility occurred. A transfer at the beginning of a school year does not decrease or eliminate the period of ineligibility (see 1710 [g]).
- 1840.2 **ACADEMIC/INELIGIBLE TRANSFER** — A student who has become academically ineligible will be declared ineligible for the same time period at the new school.
- 1840.3 **CITIZENSHIP/INELIGIBLE TRANSFER** — A student who would be ineligible because of any citizenship violation will be declared ineligible for the same time period at the new school.

Q1: A student engages in conduct which violates the school's citizenship code. What would the penalty be if the student transfers to a different school?

A1: The original school would determine the period of ineligibility; that same period would be enforced at the new school if the student transfers.

NOTE: This rule applies to students participating at a school other than the one at which the student is enrolled.

- 1840.4 **TRANSFER OF ACADEMIC ELIGIBILITY** — Any student who transfers schools within Colorado or from out of state shall carry the academic eligibility of the previous school. A student who was academically eligible at the sending school shall be eligible at the new school regardless of the receiving school's academic requirements. Likewise, a student academically ineligible at the sending school shall be ineligible regardless of the receiving school's eligibility requirements.

Q1: A student who passed four classes and failed one at a school under Option A transfers to an Option B school. What is her eligibility?

A1: Since the student would have been eligible at her previous school she will be eligible at the new school.

Q2: A student with a 1.9 GPA transfers from School A, which has a 2.0 grade point average requirement, to School B. What is his eligibility?

A2: Because the student would have been ineligible for participation under his previous school's academic requirements, he will be ineligible at the new school.

1850. TRANSFERS TO AND PARTICIPATION IN SPECIALIZED SPORTS TRAINING FACILITY

Specialization sport training programs do not include club or municipal sports teams.

A student who attends or transfers to a specialized sports training facility or competes with a program sponsored by a specialized sports training facility is ineligible for varsity interscholastic competition at a CHSAA member school in the sport sponsored by that facility.

A "specialized sports training facility" is a non-school program or organization intended to develop elite athletes through extended practice, training, competition, and travel programs. These facilities provide specialized sports competitive teams or rosters composed of high school athletes from diverse locations and residences, with the purpose of maximizing their sports training and competition opportunities. Specialized sports training facilities are not eligible to be members of CHSAA and operate outside of the recognized programs of CHSAA member schools. The facility's practice, training, competition, and/or travel programs exceed the opportunities of education-based CHSAA member school programs. These facilities do not typically offer a high school academic curriculum, but enroll their athletes in on-line school curricula.

By way of examples, the following criteria may be considered when determining a student's eligibility under this Bylaw:

- The specialized sports training facility or affiliated personnel solicit or encourage students to enroll or transfer their academic enrollment as a condition of participating in the facility's training, practice, competition, and/or travel programs.
- The student transfers to or from his/her residence without his/her parent or legal guardian.
- The student's parent or legal guardian relinquishes temporary custodial rights to the facility or any associated personnel or individual.
- The student resides in a temporary residence secured or facilitated by the facility or any associated personnel or individual.
- The student's parent or legal guardian provides financial remuneration to the facility or any associated personnel in order to participate in the facility's program.

Students who are ineligible under this Bylaw will not have varsity eligibility at a CHSAA member school at any time during their participation at a specialized sports training facility.

NOTE: Students in violation of bylaw 1850 will not have varsity eligibility at any time during their interscholastic participation at a member school. A Hardship Waiver can be filed, if

clear and convincing documentation that varsity athletics isn't the primary factor for participation.

1860. STUDENTS WITHOUT A PERMANENT RESIDENCE

- 1860.1 Any student determined by state and/or federal law (McKinney/Vento Act) to be experiencing homelessness shall have immediate sub-varsity eligibility upon completion of the Association's McKinney-Vento approved waiver in the CHSAA platform.

Students applying for full varsity eligibility must complete the Transfer Waiver in the CHSAA platform as a hardship and provide all documentation to support the transfer hardship definition.

- | |
|--|
| <p>Q1: A student who has been identified as homeless transfers to a second school after playing a sport at a previous high school. What is that student's eligibility?</p> <p>A1: That eligibility shall be determined based on the information provided to CHSAA as to why the transfer was necessary and how that transfer is impacted by state and/or federal law</p> |
|--|

1870. INTERNATIONAL STUDENTS

- 1870.1 INTERNATIONAL STUDENTS – International students on an educationally-based exchange program recognized by the Council on Standards for International Educational Travel (CSIET) shall have no more than three consecutive semesters of varsity eligibility beginning with his/her/their first varsity season. CSIET students who have played in other states, prior to coming to Colorado, shall be limited to sub-varsity participation only during their enrollment as a student.

All other international students are considered transfer students. To gain varsity eligibility in the student's first year of enrollment in a Colorado school, the international student must meet all requirements of the transfer bylaws like an in-state or out-of-state transfer.

Exception: Students who have been classified as "Refugee" by the Department of Homeland Security shall be considered for varsity eligibility, providing all other eligibility standards are met, starting with initial enrollment in a member school. A hardship waiver must be filed for these students.

NOTE: Only CSIET certified or a verifiable Educational Exchange and placed transfer student will be granted varsity eligibility. International transfer students that have choiced to study in the US without a bona fide family move, selected or been placed by their sending institution at a CHSAA member school will be JV and below upon their first entry into a Colorado member school as applied equitably for all in-state, out of state or international transfers. Recruitment of International Students - See Bylaw 1900.2 – Note.

- | |
|---|
| <p>Q1: What documentation is required in the CHSAA eligibility platform to ensure a varsity ruling for an International Exchange transfer?</p> <p>A1: Host family/school must upload the student's transcript, the acceptance letter (on exchange program letterhead) addressed to the student, recognizing placement by name at the CHSAA member school and verification by certificate or letter of national recognition of the education-based/non-athletic exchange organization.</p> |
|---|

Q2: Does a transfer designated international, but directly placed by an exchange program to a CHSAA member school qualify for varsity eligibility?

A2: No. Direct placement of a student by a self-identified International school/individuals without national verification and affiliation to a recognized educational exchange program, will result in a sub-varsity ruling for the transfer.

Q3: What if the required documentation can not be submitted but the student is alleged to have “not” participated in the last competitive year?

A3: Host family/school should submit the waiver as a 1800.42 Non-Participation and sending school must provide sending administration statements verifying non-participation. Any association concerns regarding athletic motivation on an international transfer will be investigated further, prior to a ruling.

ARTICLE 19

RECRUITING

1900.

RECRUITING

1900.1 “Recruiting” means soliciting or encouraging a student to enroll in a school in order to secure that student’s participation in an interscholastic athletic program.

1900.2 No school representative shall recruit any student or solicit or encourage any other person to recruit any student. “School representative” includes any person who has a special interest in a school or athletic team, such as a school administrator, coach, assistant coach, other school employee or volunteer, student athlete, parent or family member of a student athlete, school alumnus or booster club member.

NOTE: Any student – international or domestic – found to be recruited or promoted by a procurer, agent, parent or guardian for attendance at a specific school shall be ineligible for all athletics during their tenure as a student.

Q1: In practical terms, what should a coach do to avoid recruiting violations or accusations of recruiting (please note: in all cases, "coach" also refers to "school representatives of athletic interests")?

- A1:
1. A coach may not initiate contact with any athlete for the purpose of recruiting, soliciting or encouraging that student to transfer schools or attend a school outside of his/her/their area of attendance.
 2. If an athlete or parent of an athlete from a different school initiates contact with a coach asking academic or athletic questions about the school, the coach must immediately refer the student or parents to a school administrator, the athletic director or a guidance counselor. Further, as a courtesy, it is strongly recommended that the school at which the student currently attends be notified of the potential transfer.
 3. These clarifications are not to eliminate unplanned and casual conversations that may occur between coaches and athletes from different schools, even if athletics are a topic of conversation. A violation occurs when a coach encourages or suggests that a student transfer schools.

1900.3 In the event of a violation, the Commissioner shall impose a penalty upon the offending school and all athletic staff members participating in the violation, up to and including suspension of membership. The Commissioner may also find any student athlete involved to be ineligible to participate.

Q1: Is it a violation of the recruiting rule when incidental contact is made?

A1: It shall not be a recruiting rule violation if a member of the athletic staff or school representative of athletic interests is in normal contact (without pre-arrangement) with a prospective student or member of his/her/their family or guardian excluding any attempt to solicit and/or encourage enrollment in the school.

1900.4 If allegations of recruiting or undue influence are made against a school or coach, the burden of proof in substantiated form must be borne by the accusing party. Substantiated allegations of recruiting or undue influence will be processed by imposing the penalties established in 1900.3.

1900.5 Eighth-grade contact:

A person, acting in the capacity of the high school coach or serving in a role representing the high school, may have informational meetings with eighth-grade students who live in that high school's attendance area as established by the school district, or with those eighth-grade students that have pre-registered to attend that high school; the coach may conduct practice with those eighth graders starting May 1. This contact may include currently registered underclassmen, and the Sunday Contact rule applies to this contact after May 1.

Q1: At what point does an 8th grade student become eligible to participate with high school aged students at a school sponsored activity (i.e. camps, practice, weight room, off-season workouts, etc.)?

A1: Beginning May 1st, 8th graders that have pre-registered or live in the attendance area to attend that high school may participate with/against under classmates.

Q2: May 8th graders compete on the same team with high school students who are participating for their high school?

A2: No. It should be noted that when a Colorado school plays an out of state school that allows 8th grade students to play on their teams, the Colorado school has permission to play against that out of state school. All other CHSAA rules apply.

Q3: May a school district have an information night to view all schools programs, as well as athletic programs for 8th grade students?

A3: Yes, if all students are invited and if the program is directed toward the school in general and not just a specific sport such as football, volleyball, etc. It should be an open meeting for any school to disseminate information.

Q4: Can a HS coach have a camp or a clinic with eighth graders present?

A4: Yes, as long as there are no high school students from his/her/their school present until the May 1 date as defined by the bylaws.

1900.6 Youth recognition events/games will be defined, for the purpose of setting school protocol, as an event where individual, group or district student participants, of middle-school or younger age are recognized at a CHSAA member school athletic event. Legal and illegal protocols for such events are clearly defined below:

Acceptable:

- Free admission
- Pre-game, half-time or post-game introductions or announcements with group visibility on field, court, playing arena.
- Groups may be recognized for their participation or involvement in youth activities only.
- Teams or groups invited; must have a logical tie to the high school.

Unacceptable:

- Youth on sideline during warm-up or game
- Youth in locker room or involved in any activities associated with the team.
- Current players/coaches cannot be involved in recognition or ceremony on any level.
- Youth receiving any merchandise, meals, or school related tokens.
- Youth provided transportation to and from event.
- Illegal contact can result in the sport specific teams' placement on probation/restriction.
- No gifts, food, certificates, school gear, prizes or awards of any kind can be handed out.
- No individual or specific group or team can be singled out at the event separate from the rest of the invitees.

This does not include:

- Regular season ball boys, team managers, etc. are exempt from recognition programs

1910. UNDUE INFLUENCE - RECRUITED STUDENTS

A student who transfers schools because of the recruiting efforts of school athletic staff members and/or school representatives of athletic interests (as defined in Article 19) shall be declared ineligible for a period of time to be determined by the Commissioner. Such a period may exceed one year.

ARTICLE 20 AMATEUR STANDING

2000. AMATEUR STATUS

2000.1 The amateur rule applies to those athletic activities which are recognized by the CHSAA as part of the interscholastic program.

2000.11 An amateur athlete is one who participates and competes in sport solely for the physical, mental and social pleasure that comes from playing a sport.

2000.12 An essential condition of CHSAA athletic eligibility is that a student-athlete must maintain his/her/their amateur status. He or she may not compete for or accept cash for playing some part or all aspects of a sport. An amateur may not sign a professional athletic contract.

NOTE: A professional is defined as being paid in any form for playing in an athletic contest, or if you sign a contract or verbally commit with an agent or professional sports organization.

2000.2 NAME, IMAGE & LIKENESS: Student-athletes will be prohibited from monetizing their name, image, and likeness with the use of their school's uniform, equipment, logo, name, proprietary patents, products and/or copyrights associated with a CHSAA member school either in public, print or social media platforms.

NOTE: A student-athlete forfeits their amateur status in a sport by signing a professional playing and/or endorsement contract of monetary value or other compensation.

Q1: May a high school volleyball player compete in a summer league against a team composed of high school coaches and officials?

A1: Yes.

Q2: May a student accept a savings bond or other form of delayed payment?

A2: No.

Q3: May a high school athlete receive a fee for officiating in a recreation league in his/her/their sport?

A3: Yes.

Q4: May a high school diver accept money to perform a diving exhibition in a restaurant?

A4: No.

Q5: Is a student who has accepted money at any time for esports participation, eligible to participate on a high school esports team? This would include prize money or contract associated participating with any esports team.

A4: No.

2010.

AWARDS

2010.1 Student-athletes participating in any CHSAA sanctioned interscholastic athletic activities sponsored and/or approved by the Association shall only accept award(s) that have no intrinsic value and cost less than \$100, exclusive of engraving. The student-athlete may accept meals, lodging, transportation and merchandise for participating in a non-CHSAA sanctioned sport or event, as determined by the national governing body of that sport.

EXCEPTION 1: A corporate entity, restaurant, or other vendor that is not associated with the school(s) may provide an award for players on one or more teams that exceeds the \$100 limit.

EXCEPTION 2: Student-athletes may fundraise for personal items that exceed the \$100 limit.

2010.11 If unapproved awards are offered and accepted by the participants, such participants shall jeopardize their eligibility to represent their school in any interscholastic activity, and further penalties may ensue as determined by the Commissioner.

Q1: May a school award a student a trophy valued at \$50 and an engraved plate valued at \$3 to be affixed to the trophy?

A1: Yes.

Q2: May a school or group approved by the school award a \$100 savings bond?

A2: No.

A3: Yes, but the funds must be approved by the school and/or school district administrator per Bylaw 1640.12.

Q4: May a student accept a reasonable meal or a gift card at a local restaurant for being named the team MVP for that week?

A4: Yes.

Q5: May an outside organization donate to a school's general athletic/activity fund on behalf of a student athlete?

A5: Yes. The funds must be given directly to the school's athletic/activity fund and not ever to the individual.

NOTE: Student-athletes, as a representative of a member school, when receiving CHSAA individual awards or team trophies during post-season events including championships, must wear school issued and/or school approved apparel.

ARTICLE 21 OUTSIDE COMPETITION/PRACTICE

2100. OUTSIDE COMPETITION

2100.1 DEFINITION SPORTS SEASON — A sports season begins with the first formal practice session as established in the CHSAA Bylaws and ends with the final state championship in that sport.

2100.11 EXCEPTION: The sports season ends for a member of a high school athletic team on the day following the completion of his or her school's competition at the level at which the student competes.

2100.2 Players certified to participate as members of any high school sport team may compete on any other team, in any non-school activity or event in that sport during that sports season with the express written permission of the principal. Permission shall be granted if:

- (a) the student's class attendance is not compromised; and
- (b) the student is in good academic standing under the school's activities policy applicable to all students.

Q1: When may a principal prohibit a student from competing on an outside team in the same sport during that sports season?

A1: The principal may deny permission only when the student fails to meet the requirements of (a) and (b) above.

Q2: May high school team rules be used to determine the high school eligibility of the students who participate on outside teams?

A2: Yes. Section (b) would include high school team rules and other school policies which are applied and adhered to by all students.

Q3: A school's varsity volleyball team is involved in the state playoffs. The JV team completed its season prior to state playoffs. When may the members of the JV team begin competition on a non-school volleyball team without the permission from the school principal?

A3: Immediately following the JV season.

Q4: Once becoming a member of her high school team, may a basketball player compete in a one-on-one contest or a "hot shot" shooting contest; may a soccer player compete in indoor soccer; may a softball player compete in a slow pitch softball contest; may a swimmer compete in a triathlon of which one activity is Swimming and Diving, during the high school sports season?

A4: Yes, with written permission of the principal prior to that participation and under the stipulations of the Outside Competition Rule.

Q5: May a member of a high school team "try out" for (a) a non-school team in the same sport during the sports season; (b) a college athletic scholarship?

A5: Yes, in (a) and (b), provided he or she has the permission of the high school principal. In addition, the tryout must be based on skills assessment rather than scrimmage or game conditions.

Q6: A homeschooled student or a student at a school that does not offer a program goes to another school to try out for a team and is cut from the team after four practices. Can this student go to another school to try out for the same sport that season?

A6: No. The student had an equal opportunity to compete, then was cut. She is not eligible at another school.

Q7: May a baseball player attend a camp during the season?

A7: Yes.

Q8: (a) May a track participant compete in non-school events during the season? (b) Do those events count against the contest limits established by the CHSAA?

A3: Student/faculty games may not include underclassmen who played in that sport during the school year.

2110.

PRACTICE WITH OUTSIDE GROUPS

Members of any high school sport team may not practice with any non-school group without prior approval of the high school principal.

Q1: May a high school cross country runner PRACTICE with a non-school running club in addition to high school practice?

A1: Yes, provided the student has received permission from his/her/their principal.

NOTE: This is not to be construed to allow non-school people to participate in school practices or scrimmages.

Any student who does so participate in violation of Bylaw 2100.2 shall be ineligible to participate in a specific or all interscholastic athletic activities for a period of time to be determined by the Commissioner.

ARTICLE 22 CONDUCT/SPORTSMANSHIP

2200.1 Any player who has been ejected from a match or contest shall be disqualified for the remainder of that match or contest. In addition, the player shall be suspended from competition for the next scheduled match or contest played at the same level (sophomore, junior varsity, or varsity).

2200.11 He/she/they may not take part in any other games or contests at any level during this time.

2200.12 The number of matches, meets or contests for which the participant has been suspended from competition will decrease the stated maximum allowable matches, meets or contests in each sport for the suspended participant.

2200.13 A school may not schedule a contest after an ejection in order to circumvent the penalty.

2200.14 If such ejection occurs in the final match or contest of the season, then that player shall be suspended from competition for the first match or contest of the next season of sport that player elects to play. In satisfying the penalty, the player must sit out a game in a sport in which he/she/they completes the season.

Q1: May the Commissioner assess penalties in excess of the one suspension?

A1: Yes, in cases involving severe actions against game officials, opponents or other conduct detrimental to the high school activities program. (See Bylaws 2270.11 and 2270.12.)

Q2: A sophomore football player is ejected from his team's final contest. He does not play a winter sport, but sits out the first meet of the track season. He competes in one or more meets, but subsequently quits or is removed from the track team before the end of the season. Is he eligible to compete in the first football game of the next season?

A2: No. The track meet does not satisfy the penalty because he did not finish the track and field season.

Q3: A basketball player is ejected from a mid-season contest and quits or is removed from the team. He joins the wrestling team, practices nine days, sits out his first match, then completes the wrestling season in good standing. Is he eligible to compete in the first baseball game of the season?

A3: Yes. Because he completed the wrestling season, the wrestling match he sat out satisfies the penalty.

Q4: A JV volleyball player is ejected from the final game of the season. She is projected as a varsity player on the basketball team. May she sit out the first JV basketball contest and then compete in the next varsity game?

A4: No.

Q5: A player is ejected from a playoff volleyball match that ends her team's season. She is also a basketball player. What is her penalty for the ejection?

A5: She is suspended from competition for the first regularly scheduled varsity basketball contest and may not compete at any other level until serving the penalty.

Q6: A football player is ejected in the final varsity game of his team's season. As a junior, his only activity is football. What is his penalty for the ejection?

A6: He will be suspended from competition for his team's first varsity football game of the next season and may not compete at any other level until serving the penalty.

Q7: A basketball player is ejected from a JV contest. What is the penalty?

A7: The player is suspended from competition for the next JV contest and may not play at any other level prior to fulfilling the penalty. In addition, the player is permitted to compete in a maximum of 72 quarters during the regular season.

NOTE: This puts an added responsibility on the coach and athletic director to monitor the number of quarters which all athletes, especially ones who are ejected from a contest, play during the season.

Q8: A player is ejected from a contest but the school and/or the CHSAA does not receive notification of the ejection. Must the player serve the penalty?

A8: Yes. It is the coach's responsibility to enforce the penalty.

Q9: A player or coach is ejected from a basketball game. The following day, the official calls the coach and says that he/she/they has reconsidered and shouldn't have ejected the player or coach. Must the player or coach still sit out the next game?

A9: Yes.

2200.15 Any player ejected from a second match or contest during the same season shall be suspended from competition for the next two matches or contests of the same level.

2200.16 Any player ejected from a third match or contest during the same season shall be subject to a penalty to be determined by the Commissioner.

Q1: May a school appeal the disqualification of a player for unsportsmanlike conduct?

A1: No. Neither a judgment call nor misapplication of a rule by an official may be appealed.

2200.17 FIELD HOCKEY CUMULATIVE YELLOW CARDS — A field hockey player who receives a third, fourth, fifth, sixth, etc. yellow card during the regular season will not be eligible to compete in the next regular season contest of the same level following the game in which he/she/they received the third, fourth, fifth, sixth, etc. yellow card. At the end of the regular season, all yellow cards accumulated to that time will be cleared. Each player who accumulates a third, fourth, etc. yellow card during any portion of the playoffs (district, regional or state level competition) will be suspended from competition for the next contest of the same level following the game in which he/she/they received his/her/their third, fourth, etc. yellow card. (The player may complete the game in which he/she/they received the third yellow card.)

2200.18 Volleyball — National Federation yellow/red card procedures will be followed for conduct fouls.

2200.19 Any player leaving the bench area when a fight occurs during a match or contest will be ejected for the remainder of the match or contest. Bylaw 2200.1 will also be in effect.

2200.20 Taunting is considered any action(s) or comments by coaches, players or spectators that are intended to bait, anger, embarrass, ridicule or demean others, whether or not the deeds or words are vulgar or racist. Game officials shall, in all sports, follow the rules set forth by the National Federation for each sport. Penalties under these rules may include ejection or other penalties for flagrant unsportsmanlike offenses. Taunting in all sports and/or activities is an unsportsmanlike offense which may result in a game ejection with penalties as outlined in the student ejection policy (Rules 2200.1 and 2200.11).

NOTE: This rule also relates to the sportsmanship and ejection policies as they relate to Rule 2210 and Rule 2200.

2210. COACH EJECTION

2210.1 A coach ejected from a contest for committing an unsportsmanlike act shall be suspended from coaching for 10 percent of the season's regularly scheduled matches or contests of the same level. Standard mathematical rounding rules apply. he/she/they may not coach in any other contest at any level during this time.

2210.2 A coach ejected from a game is automatically placed on probation according to policies established by the Board of Directors (For necessary action by the school administration, see Bylaw 2420.11).

- 2210.21 A coach ejected from a game is required to complete the following courses offered on-line by the National Federation of State High School Associations (NFHS): Sportsmanship; and, Teaching and Modeling Behavior. These courses shall be completed before he/she/they will be removed from probation and must be finished in a reasonable amount of time during the season to be determined by the school's athletic director.
- 2210.3 A coach ejected from a second contest during the same season shall be suspended from coaching for 20 percent of the season's contests of the same level. Standard mathematical rounding rules apply.

2210.5 A coach ejected from three contests in a five-year period shall be placed on restriction.

Q1: A basketball coach is ejected because of three indirect technical fouls charged to bench personnel. Must he sit out one game?

A1: Yes. As he is responsible for the conduct of his assistant coaches and players, he shall be placed on administrative probation.

A2: The contest shall be forfeited.

Q3: If a coach is ejected from the final game of the season, must she sit out the first game of the next season?

A3: No.

Q4: If a coach is ejected from contests in more than one sport (or the same sport, different genders), do the penalties in 2210.4 and 2210.5 apply?

A4: Yes.

Q5: If the varsity coach, sitting on the JV bench, is ejected, may he coach in the next varsity contest?

A5: No. To do so, will result in forfeiture of the varsity contest.

2220. RESPONSIBILITY OF GAME OFFICIALS

The game official who disqualifies an individual through an unsportsmanlike act or who issues a yellow card must notify the CHSAA. Notification must also be given to the proper school authority at the site or on the next school day. In addition, the CHSAA office must notify the school of the disqualification and confirm that it has acknowledged the official report.

Q1: Does the failure of an official to report a player disqualification to the school and/or the CHSAA relieve the school of its responsibility of enforcing the suspension on the ejected player?

A1: No.

Game officials are an integral part of interscholastic activities and have been entrusted with the conduct of the event. Derogatory statements or conduct concerning game officials, either during actual games or at other times by student participants, coaches or other representatives of a school are considered detrimental to the orderly conduct of interscholastic activities programs.

Whenever a game official's conduct warrants legitimate grievance, the student participant, coach or other school representative shall express the grievance in writing and forward it through the school principal to the CHSAA Commissioner for review and appropriate action.

Failure to observe this procedure shall constitute a violation of this policy and subject the offender to authorized disciplinary action. Disciplinary action could result in the following: (a) reprimand; (b) probation; (c) restriction; or (d) suspension.

Q1: May a coach be penalized for public (print media, social media, radio, TV, etc.) derogatory comments about game officials?

A1: Yes. If public comments are accurately attributed to the coach, the Commissioner may apply any of the penalties listed above to the coach and/or program. The purpose of the policy is not to restrict the coach from communicating concerns about officiating to the appropriate people, but that it be done in a professional manner which best serves the educational purposes of high school athletics.

The host school has the responsibility to ensure that an event is governed in a manner which emphasizes the educational values inherent in interscholastic activities. It is the host school's responsibility to remove any individual(s) creating a disturbance which disrupt(s) the educational goals of the event.

Further, individuals, who by their actions, have become a constant disruption to the orderly governance of a high school activity shall be barred indefinitely by the school's principal, or his/her/their designee, from attending all high school activities at member school(s) and all district, regional and state playoff events. The CHSAA, league and offender must receive written notification of such action.

Fair play, courtesy, generosity, self-control, and friendly feelings for the opposing team or school shall not be sacrificed in the desire to win. Basic to this is the duty of the host school at any athletic contest to take every possible measure to assure courteous, friendly, and fair treatment to visiting players, school officials, fans, and game officials.

2260.1 The administration of all athletic contests in the high school program shall be entirely controlled by the properly constituted school officials.

- 2260.11 OFFICIAL SCHOOL REPRESENTATIVE —The principal or superintendent is the recognized head of the school and shall be the official representative of his/her/their school in all protests, hearings, etc. he/she/they is responsible for all athletic eligibility lists of his/her/their high school.

2270. CONDUCT OF SCHOOL PARTICIPANTS

- 2270.1 The responsibility for the conduct of the coaches, players and spectators at any athletic contest shall lie with the officials of the schools whose teams are participating in the contest. The Sportsmanship Committee will annually generate a list of unacceptable behaviors.
- 2270.11 SCHOOL — Any school whose coaches, players or spectators are guilty of gross misconduct may be suspended for a period of time to be determined by the CHSAA Board of Directors.
- 2270.12 PARTICIPANT — A participant may be suspended for a period of time to be determined by the Commissioner for conduct detrimental to the high school activity program, including severe actions against game officials.

**ARTICLE 23
PRACTICE - COMPETITION**

2300. COMPETITIVE SEASON/PARTICIPATION

- 2300.1 The competitive season is that time designated in each sport Bylaw during which interscholastic contests may be held. There may be no sanctioned interscholastic competition except during the competitive season. An individual or team may only represent a member school during the designated competitive sports season.

EXCEPTION: An individual student or team may represent a member school in a contest(s) or performance outside the competitive sports season in recognized national events sponsored by the NFHS (National Federation of High Schools) or approved by the CHSAA office and with the written permission from the school's principal.

- Q1: School A has been invited to play in a basketball tournament prior to the first allowable competitive date. May a school request a waiver of the competitive season rule?
- A1: No, the Commissioner would not grant permission for events that take place prior to the competitive sports season which may create a competitive imbalance leading into a sports season.

- 2300.2 No coach or school representative may directly or by implication direct a student to participate in competition outside of the competitive season as a condition to participating or otherwise influencing a student's opportunity to participate in any school sport.

- Q1: May a high school baseball team play a game in the fall?
- A1: No.

Q2: What constitutes participation?

A2: Participation consists of a player entering an interscholastic game or scrimmage regardless of the time interval or number of times entered within a specified unit of play (quarter, inning, etc.).

Q3: Is it a violation of CHSAA rules for a basketball player to participate in eight quarters in one night?

A3: No, but many districts and leagues have rules which limit participation. Maximum LIMITATION are listed under each sport.

2300.3 All-Star Game – Contact is allowed for up to two All-Star Games after the completion of the State Championship of that sport. All-Star Games must happen within two weeks of the State Championship, unless permission is received from the CHSAA office for a later date. There are no All-Star Games permitted in the sport of Football.

Q1: A league wants to hold an All-Star Game in the sport of Girls Soccer for all players that were selected to the All-League Team.

(1) Would Freshmen, Sophomores, Juniors, Seniors be allowed to participate?

(2) Would participants be allowed to wear their school-issued uniforms?

(3) Would High School coaches from the League be allowed to coach?

A1: Yes, to all three.

2310.

PRACTICE

2310.1 Practice is defined as the period of time during which formal practice is authorized by CHSAA Bylaws and during which an assigned coach is instructing one or more of his/her/their team members.

Formal practice for spirit athletes is defined as participation in any school scheduled team practice from the date of tryouts until the last official day of the current school year.

NOTE: This is not to be construed to allow non-school people to participate in school practices or scrimmages.

EXCEPTION: In the sports of volleyball, basketball, soccer, and football high school teams May use eighth grade students from their “feeder” middle schools when they cannot field enough high school athletes to hold an intra-squad practice in game-type conditions, under the following limitations:

- Permission for such participation must be requested by the school and approved by the CHSAA Commissioner or his/her/their designee on the CHSAA Digital Platform;
- Electronic verification of high school numbers is required, and the total program number shall be used;

- Electronic verification that school accepts the risks of using eighth graders for practice;
- Such participation can occur only two days in a single week;
- The middle school participants must have a current physical on file with the high school athletic director;
- The middle school participant is limited to practice at one high school even if his/her/their middle school feeds multiple high schools;
- Maximum number of middle school students allowed to participate in the practice is that number which is equal to or less than the number that would equate to a simulated game;
- Football practice tempo shall be limited to USA Football thud tempo (wrap up but cannot take to the ground) when eighth graders are participating in a practice.

NOTE: Participation in these practices does not affect the eighth-grade participant's future high school eligibility. Eighth graders participating in these practices retain their open enrollment decisions when selecting a high school for ninth grade.

Q1: A school wishes to authorize the start of basketball practice before the start of formal practice. Is this a violation of CHSAA practice rules?

A1: No. The Legislative Council, however, recommends starting dates. Practices before the formal sports season may not be mandatory and may not count toward the required minimum number of practices.

Q2: Who may be involved in a high school practice session?

A2: Members of the team who are bona fide undergraduates of the high school and members of the coaching staff under contract to the school district, and any student managers who are bona fide undergraduates of the high school and under the supervision of a coach.

NOTE: Members of the opposite gender team from the same high school may practice or scrimmage together.

Q3: Who may not be involved in a high school practice session?

A3: Some examples of people who may not be involved in a high school practice are:

- (1) Middle School/Junior High students
- (2) alumni
- (3) "coaches" not under contract to the district (a consultant or clinician under the supervision of the head coach may present an instructional session)
- (4) students who do not have a parent permit and a current physical exam on file with the school
- (5) students who do not have the potential to become eligible because of the age or semester rule.

Q4: May male students who are not members of the high school interscholastic basketball team scrimmage against the girls' basketball team from that school?

A4: No. Only members of the opposite gender high school team can practice with the team.

2310.2 No coach or school representative may direct a student to practice outside of the formal practice season as a condition to participating or otherwise influencing a student's opportunity to participate in any school sport.

2310.3 STUDENT/TEAM PRACTICE REQUIREMENT — Each student competing in an interscholastic sports program must have had a minimum practice period of three days in his/her/their sport(s) (exclusive of Sundays) before representing his/her/their school in an interscholastic contest or scrimmage. A student must have a minimum of nine days of practice in football. (Receiving school must have written verification on file if transfer of schools is involved.)

Q5: What are the elements which, in total, constitute a practice that will count toward satisfying the practice requirement?

A5: (1) The school's certified coach is present;
(2) the majority of the team is present;
(3) the practice is held at the regularly scheduled time and place;
(4) the practice is not held on the same day as a game or scrimmage;
(5) the athlete is actively involved (not injured) in the practice; and
(6) the practice is held during the formal practice season. At no time should a practice session be created to circumvent the **three**/nine-day practice rule.

Q6: Does attendance in an on-line meeting count as a required practice?

A6: No. For a practice to count towards minimum number of practices required it must be in person with the team. On-line meetings will not fulfill practice requirement(s).

2310.31 EXCEPTION 1: If a student competes in a second sport during the same season, one of which is a non-contact sport (tennis, golf, swimming and diving, gymnastics, baseball, softball, skiing, spirit, volleyball, cross country, track and field and soccer), then the student is exempt from the practice requirement in the non-contact sport. A student must have three days' practice in all contact sports, except football, which requires nine days of practice prior to participation in an interscholastic scrimmage or contest.

Q1: Would a student be required to have nine days of practice in football if the student played golf, then following the end of the golf season began football practice?

A1: Yes. Participation in a non-contact sport does not eliminate the need for nine days of practice in a contact sport.

Q2: Does a student need nine days of practice in each fall sport if they play both football and boys' soccer during the same season?

A2: Football: Yes; Soccer: No.

Q3: Does a student need three days of practice if he/she/they participates in two fall non-contact sports?

A3: Yes. The student must have three days of practice in one of the two non-contact sports.

Q4: Does a student need three days of practice if he/she/they participates in two fall contact sports (not football) at the same time?

A4: Yes. The student needs three days of practice in each contact sport in which he/she/they participates.

EXCEPTION 2: Participants in interscholastic golf, softball and tennis are exempt from the three-day practice rule.

EXCEPTION 3: A member of a team which competes interscholastically on or after the start of formal practice for the next sports season is exempt from the three-day requirement.

PENALTY: Schools which violate this regulation will be immediately placed on a minimum of probation until the school has provided the Commissioner with a detailed report of the incident(s) and administrative procedures have been put in place to ensure no repeat of the violation. A second violation of this regulation will result in the school being placed on restriction for a minimum of one season from state qualifying competition.

Q5: A student who has been playing volleyball at School A transfers to School B following a bona fide family move during the sixth week of school. May she immediately represent School B in interscholastic competition?

A5: Yes, if all eligibility factors have been verified as meeting the CHSAA standards and a verification in writing that the student has had three days of practice at either school or a combination of each.

Q6: If an ineligible practices with the team, do those practices count toward the practice requirement?

A6: Yes.

Q7: Does a practice on the day of a game count as one of the required practices?

A7: No.

Q8: Which practices count toward meeting the practice requirement for athletes who are or have been injured?

A8: An athlete may start accumulating practices to meet the practice requirement only when he/she/they is released by a physician and is actively involved in practice.

Q9: Does the second practice in a day count as one of the required practices?

A9: No, the rule relates to days.

Q10: Must cheerleaders have three days of practice before performing at a regular season athletic contest, or competing in an invitational spirit contest?

A10: Yes.

2310.4 WINTER VACATION PRACTICE/COMPETITION PROHIBITION — There shall be no school sponsored activity of any sort, including practices, camps, clinics, tournaments, etc. from and including December 24 through December 27 and New Year's Day. Beginning December 28, winter sports programs may have voluntary practice (excluding Sundays), but may not compete in interscholastic scrimmages or competition.

2310.41 No faculty member or coach may have contact with any of his/her/their school's athletes from December 24 through New Year's Day. Exception: Beginning December 28, winter sports programs may have practice (excluding Sundays), but may not compete in interscholastic scrimmages or competition.

Q1: Can a coach have a mandatory practice beginning December 28 (excluding Sunday and New Year's Day) to December 31?

A1: No.

Q2: May student athletes be involved in non-school sponsored camps, clinics, practices and competitions during December 24 through January 1?

A2: Yes. In these situations, high school coaches or faculty members may not be involved.

Q3: May a coach from School A coach athletes from School B and vice versa on Sundays during the school year or over the winter vacation period in the same tournament/event?

A3: No.

Q4: May fall and spring sport athletes attend camps sponsored by outside agencies during December 24 through January 1 if their own coach is not present?

A4: Yes.

Q5: Is it a violation for a wrestling coach to reserve a gym between December 24 and December 27 and require his wrestlers to attend daily workouts?

A5: Yes.

Q6: On December 27, is it a violation for a high school basketball player to play on his own at a local recreation center?

A6: No.

Q7: A school begins its winter vacation on Monday, December 22. May the school practice on Tuesday, December 23?

A7: Yes.

2310.5 SUNDAY CONTACT — No high school interscholastic contests, practices for interscholastic contests, camps, nor association between participants and coaches/directors of any CHSAA sanctioned sport from the student's school shall take place on Sundays during the school year. The Commissioner may, when deemed advisable, allow postponed state-level events to be played on Sunday. Teams playing on Monday in district, regional or in a state-culminating event will be exempt from this rule.

EXCEPTION 1 – A coach may have contact with his or her team on Sunday for a social, academic or service related activity that is strictly voluntary. The contact must be a voluntary, non-competitive/non-participatory activity.

EXCEPTION 2 – During the *school year*, schools may petition the Commissioner for a waiver of the Sunday Contact Rule based upon *religious, cultural, or educationally based events (non-athletic)*.

EXCEPTION 3 – Players who no longer have eligibility in that sport due to CHSAA Bylaw 1770.2-Semesters of Attendance or Bylaw 1770.61-Four Seasons, may have contact with coaches on Sundays for the purpose of one All-Star game per sport on Sunday following the conclusion of that sport.

Q1: Following the completion of the volleyball sports season, may a coach and a senior or underclassman player participate together in practice or competition on a Sunday?

A1: No, not until the Sunday of Week 48.

Q2: Does this include NFHS sanctioned tournaments such as the Las Vegas shoot-out, Penn State Relays, Rocky Mountain Wrestling Championships, etc.?

A2: No. The exception applies to designated "National Championships" with NFHS sponsorship.

Q3: A high school soccer coach also coaches a non-school team outside of the high school season. The team contains members of the high school team. May the non-school team compete or practice on a Sunday during the school year while the coach is present?

A3: No.

Q4: What is an All-Star game?

A4: The factors surrounding the game include, but are not limited to: a mixture of players from different teams, a coach designated for a single event, the event is scheduled for a single day, and the players are determined by a selection process involving a panel of experts.

Q5: What if two organizations want to host an All-Star game in the same sport on Sunday?

A5: If there is contact with their high school coach, players must select the one game they play on Sunday.

Q6: If a school competes in a contest on Saturday and the length of the trip extends through Sunday, may coaches travel with their teams?

A6: Yes, providing there is no practice.

Q7: When may a coach have contact with an athlete on Sunday?

A7: (1) Post-season picnics/banquets; (2) public gatherings; (3) travel required by Saturday or Monday competition; (4) attendance by coach/parent at own child's contests; (5) chance encounter; and (6) when the coach is acting in the capacity as a contest official, umpire, or referee at a competition where an athlete from his/her/their school team may be competing completely independent from any connection with the coach.

Q8: When may a school coach and his/her/their player have contact on Sunday following the conclusion of the spring sports season related to a non-school team?

A8: The first day of allowable Sunday contact is the Sunday prior to Memorial Day through the Sunday prior to the first formal practice for the fall sports season.

Q9: May a freshman coach who has had minimal, or no, contact with the varsity volleyball team members during the season have contact with those players on Sunday (a) during the season; and (b) following the season?

A9: No, in both cases. The Sunday Contact Rule applies to all coaches, at all levels, on the staff at an institution. In this case, the freshman coach, like the sophomore, junior varsity and other assistants, is prohibited from contact with players for that school for the school year on Sunday.

Q10: If district, regional or state play is rescheduled from a Friday or Saturday playoff date to a Monday due to poor weather, will practice be permissible on a Sunday?

A10: Yes. If any rescheduled district, regional or state event occurs on Monday due to poor weather or any other circumstance that forces a reschedule, the Sunday Contact Rule will be exempt.

Q11: What type of social media contact is allowed on Sunday?

A11: Contact on Sundays will be permitted via social media such as Twitter, Facebook, and email so long as it is done in a public way and not direct communication with an individual athlete, or a call-to-action of any kind. A call to action would be a request for that recipient to follow through on a request on a Sunday. (i.e., view a posted game film, etc.) Private communication, such as direct messages, are not permitted. Group texts to teams on Sundays which include administrators are permitted, but text messages to individual athletes are not.

2310.6 Unless it is otherwise stated/defined in the specific sport bulletin, no teams or individuals may practice at a state tournament site the week prior to that state tournament, unless practice is expressly allowed by CHSAA policy (i.e., golf) or that site is that team's or individual's regular practice or game facility. This includes the district, regional or state levels of the playoffs.

Q1: May a school schedule a practice at the site of the state basketball tournament in advance of the tournament?

A1: No. The only time a team may practice at a state tournament site is if the tournament site is that team's regular practice or game facility.

2320. SCRIMMAGES/FOUNDATION BENEFIT CONTEST

2320.1 A scrimmage date is the meeting of any number of individuals or teams from two or more high schools on a single date for participation under the conditions enumerated below:

2320.11 A school will be permitted two scrimmage dates in each sport.

Q1: School A's girls varsity hosts School B's girls' varsity and on the same day School A's girls' JV and sophomore teams travel to School B. Is this considered one scrimmage date?

A1: Yes. The key factor is that all are occurring on the same day.

(a) Two additional interscholastic scrimmage dates will be allowed for those wrestlers qualifying for the state wrestling meet the week after regional tournaments.

(b) Ninth grade teams housed in junior highs (with 9th graders who do not "play up" in a specific sport) are allowed two scrimmage dates that may or may not fall on the same date as the high school.

- (c) Teams still involved in district, regional or state competition shall be permitted one additional scrimmage date to occur between the end of the regular season and the state championships final.
- (d) Tennis teams shall be allowed two scrimmage dates per player.
- (e) Football is allowed only one scrimmage.

Q2: A team participates in an additional scrimmage after the end of the regular season and before the start of the district basketball tournament. If the team qualifies to the regional round, may it participate in another scrimmage?

A2: No, unless the school had one of two allowable scrimmages available from the regular season.

2320.12 Scrimmages may be held beginning the 6th day (including the first day of practice, but not including Sundays) after the start of formal practice until the conclusion of the sport season in all sports except football.

- (a) EXCEPTION – Golf, softball and tennis scrimmages/games may be conducted from the 4th day of the start of the competitive season until the final state championship. Football may not scrimmage until the 10th day after the start of formal practice.

2320.13 PARTICIPANTS IN SCRIMMAGES AND FOUNDATION GAMES— All participants in interscholastic scrimmages and foundation games must have completed nine/three days of formal practice in the sport they are representing. See Rule 2310.3.

2320.14 Scrimmages and foundation games may not be held with non-high school teams or individuals.

Q1: May a school scrimmage against a non-school team (e.g., junior high, alumni, recreation league, intramural team or faculty)?

A1: No.

2320.15 All participants in interscholastic scrimmages must be eligible in accordance with "General Eligibility" of the Administrative and General Bylaws, and must be eligible in all other ways.

Q1: May a student participate in a scrimmage, contest or foundation game prior to their transfer paperwork being ruled on by the Commissioner?

A1: No.

2320.16 No score may be kept. Instruction is the primary reason for a scrimmage.

2320.17 The scrimmage may not be advertised and no admission may be charged.

2320.18 Officials may be paid.

Q1: Can officials be paid in lieu of the stated scrimmage fees?

A1: They may be compensated through meals, gift cards, etc. not to exceed the cash value of the stated fee. They may not be paid more than the stated scrimmage fee. (See Officials Fees report)

2320.19 School administrators must be notified prior to each scrimmage.

2320.2 Two or more schools may practice together at one site in the sports of golf, gymnastics, tennis, swimming, and diving, wrestling and track and field if the following conditions are met:

- One school does not have enough participants to conduct a reasonable practice.
- A specific coach (example: pole vault coach) is not available.
- Approval must be granted by the CHSAA office.

2320.3 During an interscholastic football scrimmage there shall be no live contact during kicking plays.

2320.4 Any school may schedule two "Foundation Benefit Contests" per sport, per level, in addition to their allotted game/contest limits, without penalty, under the following conditions:

1. Any Showcase must be sanctioned through the CHSAA Office (per contest, per level-see table below) with the host school responsible for seeking sanctioning:

Varsity	Sub-Varsity
1A - \$100	1A - \$50
2A - \$125	2A - \$62.50
3A - \$150	3A - \$75
4A - \$175	4A - \$87.50
5A - \$200	5A - \$100
6A - \$200	6A - \$100

2. Admission may be charged
3. Registered officials are contracted and paid per Officials' Fee Table
4. Score is kept
5. Results will not impact postseason/playoff consideration based on regular season performance
6. All individual sports safety rules apply

NOTE: School's may not conduct scrimmages, foundation games or any type of competition outside of the formal competitive season.

2330. PENALTY FOR PRACTICE, SCRIMMAGE, COMPETITION VIOLATIONS

2330.1 The Commissioner of the CHSAA is directed to place on probation or restriction for a minimum of one season from state qualifying competition any member school program and/or coach which violates the following rules and other violations as deemed appropriate by the Commissioner:

- Sunday practice/contact;

- Intentional playing of ineligible player or player suspended from competition in an interscholastic scrimmage or contest;
- Falsifying records for eligibility;
- Removing team prior to completion of contest;
- Violation of winter vacation practice prohibition;
- Exceeding team participation limits;
- Exceeding individual participation limits;
- Football contact violations;
- Conduct violations;
- Scrimmaging, practicing or competing against middle school/junior high or non-school teams or individuals;
- Intentional violation of any CHSAA Bylaw.
- Team or individual participating in a school-sanctioned interscholastic competition outside the designated sports season.
- Any action or conduct that the Commissioner deems detrimental to the mission of the Colorado High School Activities Association.
- Failure to enter a VEAP (Venue-Specific Emergency Action Plan) in the CHSAA electronic platform and communicate with designated school personnel prior to the beginning of each season.

2330.2 The Board of Directors by way of the Commissioner may be petitioned by a school in violation of actions shown in Rule 2330.1 to alter this directive when it is clearly evident that mitigating circumstances exist.

2330.21 The Commissioner, if the Board of Directors is not in session to review a petition due to playoff time constraints, may consider requests to waive the directive and substitute any penalty which he sees as justified and appropriate, with a report being made to the Board of Directors at its next regularly scheduled meeting.

ARTICLE 24

INELIGIBLE PARTICIPANTS/FORFEITS/PROTEST PROCEDURES/PENALTIES

2400.	INELIGIBLE PARTICIPANT/FORFEITS
--------------	--

DEFINITION - For purposes of the CHSAA bylaws, a forfeiture shall be defined as a voluntary or involuntary decision that results in a loss for the team (and a win for their opponent). This shall apply whether the bylaws were violated by an individual student, students or coach, or through an action of the school or program. Financial and/or other penalties may accompany any forfeiture. (See also bylaw 2860).

2400.1 It shall be the duty and responsibility of the principal, or his/her/their designee, of a member school to determine that participants have met all eligibility requirements and communicate student eligibility procedures to registrars, coaches and sponsors.

2400.2 A student who does not meet all eligibility requirements is an ineligible participant and any game in which an ineligible participant participates shall be forfeited. The team and/or coach may be placed on probation and/or restriction for one calendar year from the date of the Commissioners ruling.

2400.21 An exception may be made only after a notification of penalty has been made by the Assistant/Associate Commissioner of a sport that the game(s) must be forfeited. A formal written appeals request shall be made to the who then will determine if the penalty shall be upheld, modified or additional sanctions are required as specified in Rule 2420.

The decision of the Commissioner may be appealed through the process outlined in Article 25, Rule 2540.

2400.3 During state culminating competitions, the Commissioner will determine penalties to Be assessed for playing an ineligible or a player suspended from competition.

Q1: What are some of the factors that the Commissioner will consider when determining the penalty for playing an ineligible or a player suspended from competition in the playoffs?

A1: The participation of an ineligible in the playoffs will result in a forfeit. The school that allowed the ineligible to participate may appeal the forfeiture to the Commissioner, in consultation with the Assistant Commissioner in charge of the sport, to determine if the violation was neither intentional nor the result of negligence by the school and that mitigating circumstances exist which make forfeiture an inappropriate penalty. (Mitigating circumstances should be the same regardless of regular or post season play.) The appropriate penalty shall be determined, which may include declaring the participant ineligible for future competition and/or any of the penalties specified in Rule 2420.

If a forfeiture results, the Commissioner will determine the best method for completing the remainder of the playoff bracket. Provisions used by the Commissioner to determine competition completion shall include the following: issues of athletic safety, transportation, facility availability, number of teams impacted and time.

2400.4 It shall be the duty of the principal or coach who has knowledge or information that places in question the eligibility of any player who is likely to participate in an athletic contest, to report such knowledge or information immediately to the principal of the participant's school.

2400.41 Failure to do so shall be an indication of bad faith and the school officials, by their failure to report such knowledge or information immediately, shall forfeit the right to protest the result of a contest in which the ineligible contestant participated.

2400.5 Students who fail to meet any of the requirements for participation shall be declared ineligible and be subjected to any penalty associated with ineligibility, including but not limited to forfeiture, probation loss of future eligibility and/or any other penalty deemed appropriate by the Commissioner. A student who participates while ineligible shall be declared ineligible for at least a like number of contests. The penalty may be assessed in a future season. Ineligible students may be allowed to sit on the team bench area out of uniform when the school deems it appropriate.

2400.6 Schools which are found to have played an ineligible player (due to the transfer rule, grades, etc....) shall be subject to forfeiture, probation, loss of future eligibility, and/or any other penalty deemed appropriate by the Commissioner, including the retraction of any awards or trophies received, up to one year from the date of the championship event in that particular sport. Any violation of this nature will be subject to sanction for up to one year after the date of the championship event in that particular sport.

2400.7 If a student, who has been declared ineligible, is permitted to participate in interscholastic competition because of a court order, temporary restraining order and/or other ruling by a court order against the school or the CHSAA, and the resulting litigation is voluntarily vacated, stayed, reversed or determined by the courts not to justify injunctive relief, the games, contests or events in which the student participated shall be subject to the rules and regulations pertaining to the playing of an ineligible. The games in which the ineligible played will be forfeited and any individual honors revoked.

Q1: A student is declared ineligible 1) under a school district policy, or 2) under a CHSAA Bylaw and seeks relief from the court, which is granted pending a formal hearing. The student participates in three games prior to the court upholding the ineligibility. What is the consequence for his participation?

A1: In both 1) and 2) the games in which the student participated may be forfeited. CHSAA forfeiture rules could allow the Commissioner to modify or vacate the forfeits.

2410. PROTEST PROCEDURES

JUDGMENT, PLAYING RULES — No protests involving the judgment or misapplication of a rule by an official will be considered by the league or the Association. The playing rules in each sport/activity will govern the conduct of all contests in that activity.

2420. PENALTIES

In assessing penalties, the Commissioner may consider any of the following:

2420.1 (a) REPRIMAND – Reprimand is an official letter to an individual and/or school that references an offense committed and is a warning against further acts which are contrary to the aims and philosophies of the Association. This letter will become a part of the permanent file of the individual and/or school involved

(b) PROBATION – Probation is an action which formally notifies a school that it, or any of its representatives, has violated CHSAA rules, policies or philosophy. Additional violations while on probation are considered serious and could lead to restriction or suspension. Individuals, programs and/or schools shall remain on probation for a period of one year. Probation may be removed only after a formal request has been made by the offending school's administration to, and approved by, the Board of Directors.

2420.11 REMOVAL FROM PROBATION – A request forwarded by a school administrator for removal from probation is to be initially routed through the Commissioner. The request is to outline the constructive action taken by the school administration and ensuing acceptance by the coach to prevent a reoccurrence in seeking removal from

probationary status. The Commissioner will then compile a singular list for submission to the Board of Directors.

2420.12 ADDED REVIEW — Those situations which, in the Commissioner's opinion, have not demonstrated constructive action will be forwarded to the Board of Directors for a personal appearance by the administrator and the coach in question. By this means, an appearance before the Board of Directors would truly carry the intent of a major review and thus, create a conducive atmosphere of cooperation at the local school level in an effort to eliminate such circumstances.

(c) RESTRICTION – Restriction is an action which prohibits a school and/or a specific school athletic program, or individual from participation in district, regional and state level activities. Restriction may be applied to an individual, a team, group or a school. Individuals, programs and/or schools shall remain on restriction for a period of one year. Restriction may be removed only after a formal request has been made by the offending school's administration to, and approved by, the Board of Directors. Upon removal of the restriction, the individual, team, group or school shall be placed on probation.

2420.13 Coaches (including head and assistant coaches) with supervisory responsibility for programs placed on restriction shall be required to miss a specified number of contests as determined by the Commissioner and school in addition to other administrative actions taken to prevent a re-occurrence of the violation before the restriction is removed.

(d) SUSPENSION – Suspension is an action that removes a school from membership and prohibits participation in any or all CHSAA-sponsored activities. The length of suspension shall be determined by the Board of Directors. This penalty may also be assessed against individuals for conduct detrimental to high school activities.

Q1: An ineligible or a player suspended from competition participates for School A in a regional wrestling tournament, in which five School A wrestlers qualify. School A also wins the regional team championship. What are the penalties?

A1: The ineligible does not qualify, and the regional director must certify a qualifier in his place. The remaining School A wrestlers qualify. All team points are forfeited and School A must relinquish its regional team championship.

Q2: In a game to determine the No. 3 state football playoff berth, the coach of Team A substitutes an ineligible student for the last play of the game. The coach was not aware that the student was ineligible. The ineligible's participation has no effect on the outcome of the game in which A defeated B, 40-0. What is the penalty?

A2: Team A must forfeit the game to Team B.

Q3: What is the penalty for unknowingly playing an ineligible in a regular season contest?

A3: Forfeiture of the contest and reprimand letter.

Q4: (1) May an ineligible sit in uniform on the team bench? (2) May an ineligible sit on the bench in street clothes?

A4: (1) No. (2) Yes, if the school deems it appropriate.

Q5: May an ineligible (with the potential to become eligible) practice with the team?

A5: Yes.

Q6: School A's coach is ejected from a contest and no person who meets the Bylaw's definition of a coach is available. What is the status of the contest?

A6: School A must forfeit the contest.

Q7: In a regional game, Team A allows 13 players to compete in violation of the roster limit set forth in the Bylaws. What is the penalty?

A7: The contest shall be forfeited unless the Commissioner determines that the forfeiture will disrupt the playoffs due to the timing of the report of the violation. In such a case, the Commissioner may substitute a penalty which may include restriction of the coach.

2420.14 REMOVAL FROM RESTRICTION OR SUSPENSION – The outline of the constructive action taken by the school administration and the ensuing acceptance by the coach to prevent a re-occurrence of the violation, may, in instances in which the Board of Directors deems it necessary, contain one or more of the following action items:

1. Have a person with expertise in the area of the issue(s) in question, conduct an in-service for the coaches, players, administrators and others directly involved in the incident about the impact of the violation on the local community and the membership of the Colorado High School Activities Association at large.
2. Send a letter of apology to principal, faculty, and student body of each school in the Colorado High School Activities Association membership, expressing the goals and expectations as determined from the in-service.
3. Give a public apology at one of the two Legislative Council meetings of the Colorado High School Activities Association expressing the goals and expectations as determined from the in-service.
4. Or provide any other action as deemed necessary and/or appropriate by the Board of Directors.

(e) LACK OF ADMINISTRATIVE CONTROL — Continued, multiple and/or severe violations of CHSAA Bylaws by school personnel and school representatives. Review and acceptance of corrective procedures must be made by the CHSAA Board of Directors.

2420.2 All penalties assessed by the Commissioner shall be subject to appeal and review of the Board of Directors.

2430.	WITHDRAWAL OF TEAM FROM PLAYING FIELD
--------------	--

- 2430.1 No member school shall withdraw its team from an athletic contest prior to the termination of the contest, except by mutual consent of the responsible faculty representatives from the participating schools.
- 2430.11 Violation of this provision shall automatically result in forfeiture of the contest by the school guilty of the violation and place the violator on restriction from further participation at the district, regional or state levels of that sport until such time as the Board of Directors at its next regular meeting shall consider recommending the expulsion of the school guilty of the violation or shall reinstate the school to full privileges.
- 2430.12 EXCEPTION: The Board of Directors may be petitioned by a school in violation to waive the restriction in cases involving mitigating circumstances and by a favorable vote of two-thirds of its members present, the Board of Directors may instruct the Commissioner or his designee to waive the designated penalty and substitute any penalty which the committee feels justified and appropriate.
- 2430.2 All schools fielding varsity teams are expected to enter applicable postseason competition. The failure to compete in tournaments for which qualified (district, regional, state) shall cause a school's entire athletic program to be placed on probation.
- 2430.21 In cases involving extenuating circumstances, schools should appeal to the Commissioner for an exception to the requirement to compete. Unless the failure to compete is caused by a last minute circumstance (e.g., weather, road conditions, accident), the request should be made prior to the competition.
- 2430.22 A second violation of a school within a five-year period shall cause all the school's athletic teams to be placed on restriction for a time period to be determined by the Board of Directors.

2610. SANCTIONED EVENTS AND TRAVEL

Permission to travel out of state or the approval of in-state or out-of-state events does not imply that the CHSAA has any control over or knowledge of the administration of the event. It shall be the full responsibility of the school administrator and/or the local Board of Education before a request is made for approval to the CHSAA, to thoroughly investigate the conditions under which the contests are conducted, which may include, but not be limited to such items as travel, lodging, physical plant or conditions, supervision and loss of school/teacher time.

2620. COMPETITION OUT-OF-STATE

Each state association shall sanction through the NFHS office interstate competition by a member school involving either:

- a. Eight or more schools, at least one of which is from a state that does not border the host state;
- OR
- b. Five or more states, at least one of which does not border the host state.

Q1:	A school from Colorado and a school from Ohio want to play a football game. What is the sanctioning procedure?
-----	--

A1:	Two schools from non-adjacent states may compete without National Federation sanction. Permission must be granted by the CHSAA for out-of-state travel.
-----	---

Q2:	If all schools border the host state, what is the sanctioning procedure?
-----	--

A2:	Each state association approves.
-----	----------------------------------

2640.11 Any interstate competition involving two or more schools which is co-sponsored by an organization outside the high school community (e.g., a university, a theme park, a shoe company), in addition to being sponsored by a member school, an approved school or a state association, shall require sanction of the NFHS office.

2640.12 **FINANCIAL REQUIREMENTS** — When NFHS sanction is required, the host school is responsible to pay a processing fee (made payable to the National Federation) for each application.

2640.13 **APPLICATION DEADLINE** — Application for National Federation approval and sanction must be submitted by the host school to the Commissioner at least 30 days prior to the scheduled date of the event.

- 2650.11 Exceptions to the Bylaws may be considered when individual athletes receive an invitation to participate in qualifying events for national teams recognized by the United States Olympic Committee.

ARTICLE 27 OFFICIALS

2700. CHSAA OFFICIALS' LIAISON

A representative of the Association shall serve as a liaison for all athletic game officials' associations whose members officiate for fees at Colorado high school athletic events.

2710. OFFICIALS' ORGANIZATIONS

- 2710.1 Although there shall be a liaison from the CHSAA to all officials' groups whose members officiate at high school athletic contests, there shall be created a separate officials' organization for each sport sanctioned by the CHSAA. Each organization shall be expected to set standards of membership and registration which shall insure that qualified and competent officials are available for use by member schools.
- 2710.11 Each organization shall prescribe the tests which each member must pass to receive or renew his/her/their annual membership card. The organization shall prescribe any other standards which it deems advisable.
- 2710.2 Any member school, or its designee, that assigns game officials to CHSAA sanctioned interscholastic contests shall annually register with the CHSAA.

2720. REGISTERED OFFICIALS LIST

- 2720.1 Each member of an officials' organization shall have registered through the CHSAA automated registration system and submitted a consent to background check for a specified amount time. Only those officials who have completed their officials' organization eligibility check list may be contracted by member schools to officiate in all varsity and junior varsity contests.
- 2720.2 Permission in extreme extenuating circumstances may be granted for the use of non-registered officials through the Commissioner, under the following conditions:
1. A written request is made to the Commissioner.
 2. Proof is provided to the Commissioner that all other avenues for available to registered officials have been exhausted.
 3. The contracting school has approved the qualifications, knowledge and experience of the non-registered official by providing the following to the non-registered official:
 - a. A rulebook to be purchased by the non-registered official.
 - b. A take-home test for the non-registered official to be completed within five days of the contest and returned to the officials' association for that sport.

4. A list of any non-registered officials used must be submitted to the CHSAA officials' liaison in that sport.

2720.21 When it may be virtually impossible to secure registered officials at all times, schools, acting through their leagues, may seek temporary written permission from the Commissioner to use unregistered local officials at the varsity level. However, whenever it is deemed reasonably possible for schools to secure registered and approved officials, the Commissioner may be expected to refuse such permission. All requests seeking the use of non-registered officials must be made in writing to the Commissioner.

2720.3 Each registered official, in addition to his/her/their varsity schedule, is required to officiate two sub-varsity games or 20% of her/his varsity schedule whichever is less. Non-compliance with this requirement restricts the official from post-season playoff assignments.

2720.4 Only those officials who are registered with the Commissioner and have been issued a CHSAA registration card may be contracted by member schools to be volleyball line judges in district, regional and state level contests.

2730. ROLE OF SCHOOL HOSTING OFFICIALS

In striving for competent and efficient officiating at all athletic contests, the Association is equally insistent that school authorities, coaches and players exert every effort to assure officials the respect and courtesy to which their position entitles them. Instances of unsportsmanlike and discourteous treatment of officials by coaches, players, school authorities, or fans of any school community will warrant vigorous warning by, or suspension from, the Association. The Commissioner is authorized to investigate any reports of such conduct and to issue appropriate penalties which may include suspension.

2740. OFFICIALS FEES

Officials fees are established by the Legislative Council based on the recommendations from the Officials Fees Committee.

2750. ASSIGNMENT MEETINGS

The Commissioner of the CHSAA shall develop a procedure whereby all officials' assignment meetings are to be conducted. The Board of Directors of the Officials' organizations shall be consulted. The approved procedure shall provide for an equitable assignment of officials for all schools.

2760. OFFICIALS' CONDUCT

Any registered official may be suspended and/or banned from the CHSAA registered list of officials for a specified amount of time (including a lifetime ban) by recommendation of the officials' organizations' governing board or CHSAA Commissioner when:

1. It has been shown that the official is guilty of unethical conduct; or
2. The official refuses to promptly file reports requested by the Commissioner's office and such reports are deemed pertinent to the conduct of coach, contestant, official or school competing under the jurisdiction of the CHSAA; or

3. If the official, as an adult, has been convicted of or has pleaded "guilty" or "no contest" to any criminal charge due to conduct that adversely affects the ability or appropriateness of the official to perform officiating duties in interscholastic athletics or activities; or
4. If the official has engaged in any illegal, unethical, or immoral conduct that adversely affects the ability or appropriateness of the official to perform officiating duties in interscholastic athletics or activities; or
5. It is deemed that the official's conduct is detrimental to interscholastic athletics and activities.

CHSAA game officials are expected to abide by the code of ethics for their respective associations, including proper, accepted social conduct. Violations of this Bylaw will be investigated and, if substantiated, the official may be suspended from the CHSAA registered list of officials for a specific period.

Any official who has been suspended or expelled by the CHSAA may appeal the action by an appearance before the CHSAA Board of Directors. The decision of the CHSAA Board of Directors shall be final.

ARTICLE 28

ATHLETIC BYLAWS

2800.	PHILOSOPHY OF INTERSCHOLASTIC ATHLETICS
--------------	--

Interscholastic athletics in high schools shall be organized and administered to contribute to the health, welfare, citizenship, character development of the individual athlete in an equitable manner to produce an experience in secondary education which is valuable and fair to all regardless of national origin, race, gender and disability.

2810.	ACADEMIC PRIORITY
--------------	--------------------------

The CHSAA recognizes that the academic program must have top priority in the educational process. The Association is well aware of the importance of the activities program, but it recognizes that it should never overshadow the emphasis placed on classroom work. Schools are strongly urged to maximize student-teacher classroom contact by minimizing the loss of school time caused by extracurricular activities.

2820.	EQUAL OPPORTUNITY
--------------	--------------------------

2820.1 The CHSAA, in order to effectively equalize athletic opportunities for members of both sexes, promotes and encourages the use of comparable athletic teams for members of each sex where selection for such teams is based upon competitive skills. This effort is to promote and encourage the growth of female involvement in athletic programs sponsored by this organization.

2820.11 The term "competitive skills" as used in this context refers to those skills presently possessed by athletes as a class composed of male athletes, as compared to the class of female athletes.

2830.	PHILOSOPHY OF COLLECTIVE SKILLS
--------------	--

- 2830.1 The Association does not consider the individual skills of the athlete, but considers the collective skills of female athletes with the collective skills of male athletes. To say girls as a class possess equal skills with boys as a class in athletic contests would be untrue. To decide otherwise would permit male athletes who do not possess individual skills sufficient to participate in boys' athletic contests, but whose skills are superior to those of girls, to compete in events restricted to female athletes, thus creating an inequity of skills within a class, and ultimately severely limiting participation of female athletes. This would destroy the intent of the Association to promote and encourage the growth of female involvement in athletic programs.
- 2830.11 The Association adopts the philosophy as set forth in "Female Athletics", Corbitt, et al., published in JAMA, June 3, 1964, Vol. 228, No. 10, together with references included therein as standards for the above stated philosophy.

2840.	PLAYOFF ORGANIZATION
--------------	-----------------------------

- 2840.1 The CHSAA shall have the authority to organize and conduct championship playoff culminating events in all sports and activities sanctioned by the CHSAA.
- 2840.2 Each member school grants to the Colorado High School Activities Association the exclusive telecast or broadcast rights to all events at the playoff level. "Telecast and broadcast rights" include, but are not limited to, over the air television, cable television, radio, internet or web streaming. The "playoff level" includes any post-season event identified as festival, district, sectional, regional or state by Legislative Council action. The CHSAA reserves the right to grant or refuse any request for broadcast/telecast at the playoff level. The CHSAA may contract with third parties for the telecast or broadcast of any event at the playoff level and establish rights fees for any such events.
- 2840.3 Each member school and league grants to the Colorado High School Activities Association the exclusive rights to negotiate with any agency other than the school, on behalf of the member schools and/or leagues regarding any regular season television (linear or web streaming) broadcasts. Any regular season broadcast fees remain with the member school and/or conference for which this negotiation was performed. Any broadcast initiated and conducted by the school program would be exempt from this policy.

2850.	STUDENT AND TEAM COMPOSITION
--------------	-------------------------------------

- 2850.1 Requirements for a team which competes in CHSAA sanctioned interscholastic events:
- Authorized and recognized by local school board or governing body.
 - Team members are under the direct supervision of a coach hired by the local school board or private school governing body. The head coach shall have a current Colorado teaching certificate or shall be registered with the CHSAA.
 - Team members and coaches are under the direct supervision of the principal or athletic director.
- 2850.2 The CHSAA must receive written notification of the school's intent to sponsor a team on or prior to the first allowable day for competition in that sport in order for the school to be assigned to state qualifying competition. Formats established by the Legislative Council may preclude assignment to qualifying competition in specific sports.

2850.3 Interscholastic sports teams composed of boys, girls, and/or boys and girls shall be conducted in accordance with the following Bylaws as noted and modified. Schools shall designate the type of team for each sport according to the following:

- (a) BOYS' TEAM — Whenever the school provides only a team or teams for boys in a particular sport, girls are permitted to qualify for the boys' team(s).
- (b) SEPARATE TEAMS — Whenever the school provides a team or teams for boys and a team or teams for girls in the same sport, girls shall not be permitted to qualify for the boys' team(s) in that sport, nor shall boys be permitted to qualify for the girls' team(s) in that sport.
- (c) GIRLS' TEAMS — Whenever the school provides only a team or teams for girls in a particular sport, boys shall not be permitted to qualify for the girls' team in that sport.
- (d) COED TEAMS – Whenever the Association designates a coed team, that team must be composed of both boys and girls.

Q1: May a school sponsor a team for a single competitor?

A1: No. However, if a school has a single male competitor and a single female competitor in a sport conducted during the same season, each competitor may qualify for state competition through their respective boys and girls qualifying events.

Q2: The Bylaws for baseball, basketball, ice hockey, soccer and volleyball specify the number of players which may be certified to compete in a district, regional or state tournament. May an eligible student who was not on the regional roster appear on the state roster?

A2: Yes. Rosters can be changed after each playoff contest.

Q3: A player is injured in the state volleyball quarterfinals. May the coach add an additional player to the roster for the semifinals?

A3: Yes.

2860. GAME CONTRACTS

2860.1 Member schools shall honor game contracts entered into in good faith, unless a reasonable accommodation between the competing schools is reached or the contest is cancelled due to an act of God which gives league/conference rescheduled contests a priority over non-conference games. Contracts must be written, should be specific with respect to the obligations of each party, and must be signed by the principal or athletic director of each of the contracting schools.

2860.11 CHANGE OF ADMINISTRATION — A change in the administration within a school does not abrogate the obligation of a school with respect to its responsibility under the contract. In cases where a second contract is signed, if it is in conflict with the terms of an earlier contract, properly drawn and executed, the second contract shall be deemed null and void.

2860.12 PENALTY – Schools which violate this regulation will be immediately placed on probation and a \$500 reimbursement must be paid to the offended school within 45 days. A second violation of this regulation will result in a school or program being placed on restriction, and a reimbursement of \$1,000 must be paid to the offended school. Subsequent violations will result in a mandatory meeting with the CHSAA office with the penalty to be determined. 2960.

PITCHING LIMITATION

2960.1 Pitchers will be placed on daily pitch counts for games based on the recommendations from the CHSAA Baseball Advisory Committee and approved by the Legislative Council. Said pitch count rules to be published annually as part of the Baseball Report.

Q1: What is the penalty for violating the pitching limitation rule?

A1: When a pitcher exceeds the pitching limit, he/she/they becomes ineligible. The use of an ineligible shall result in forfeiture of the contest(s) in which the ineligible participated.

Q2: Do all interscholastic contests, varsity and JV, league and non-league, count toward determining the number of innings pitched?

A2: Yes. Interscholastic scrimmages do not count, but all other contests do.

Q3: Is every team accountable for supplying proof of how many innings each pitcher has thrown?

A3: Yes. Accurate records should be kept in the team score book and should be open to opponents. In addition, a line-up card should be exchanged between teams including a notation next to the name of each potential pitcher showing the number of innings he is permitted to pitch on that given day. This will give accountability to both teams, as well as providing another "check". Players and coaches want to win games on the field, not because of an ineligibility. A coach who is aware that his opponent is about to violate the pitching LIMITATION should draw the potential violation to the attention of the opposing coach.

Q4: May an umpire prevent a pitcher from violating the pitching LIMITATION?

A4: No. The umpire's job is to enforce the National Federation Rules, not those in the CHSAA bulletin. An umpire who has knowledge of a potential violation might point it out to the coach, but he has no authority to prohibit a player from pitching.

Q5: May schools or leagues adopt more stringent pitching LIMITATION?

A5: Yes. Weather, maturity of the pitcher and number and type of pitches thrown are all factors which contribute to wear and tear on young arms. A coach's first consideration should always be the health and safety of his players.

BLACKOUT DATES FOR STATEWIDE TESTING

It is strongly recommended that no high school interscholastic contests, practices for interscholastic contests, camps, nor athletic/activity association between participants and coaches/directors of any activity from the student's school shall take place on the day prior to and the day of the statewide Junior ACT test.

5240.

LIMIT ON PLAYOFF QUALIFIER INCREASES

Before any committee recommendation for increased playoff qualifiers, travel expansion or missed school time can be proposed, a need must be determined, approved, and requested by the CHSAA Board of Directors.

5250.	OUT OF DISTRICT PARTICIPANT PLACEMENT POLICY
--------------	---

Each district shall have on file with the CHSAA office a policy for placing students competing under state law. This includes students at schools without a specific program and students enrolled in home-based educational programs.

Q1:	A homeschool student, who lives next to School A, registers with a multi-high school district and requests to participate at School B. Must the district honor the request?
-----	---

A1:	No. The district should have a policy, on file with CHSAA, which details the school placement of such students. If the policy states that the student must participate at the school closest to his residence, then the student must participate at School A.
-----	---

Q2:	May the policy on file with CHSAA state that the student may participate at the school of his/her/their choice?
-----	---

A2:	Yes.
-----	------

5260.	STATE STATUTES APPLICATION
--------------	-----------------------------------

5260.1	Each district shall have on file with the CHSAA office a policy for placing students competing under state law. This includes students at schools without a specific program and students enrolled in home-based educational programs.
--------	--

5260.2	Students who have participated at another school, but whose school adds a varsity program, must return to the school where they are enrolled to participate.
--------	--

5260.3	Any transfer of athletic programs by a home-based education student or student at a school without a program, shall be defined as a transfer for athletic purposes and CHSAA Transfer Rules shall be applied.
--------	---

5260.4	The Colorado Revised Statutes (22-32-116.5) dictate the manner in which a student who is attending a school without a program may participate at another school (refer to state law for complete information).
--------	--

In order to remain in compliance with state statutes, a school:

- May not dictate to which school a student must go if his/her/their school does not offer a program
- May not make an informal agreement between schools in regard to which school will offer a program and which will not
- Must provide transcripts for eligibility checks;

Schools violating any portion of this by-law shall have the related sports program placed on a minimum of restriction.

ARTICLE 53 MIDDLE SCHOOL/JUNIOR HIGH DIVISION

5300.

PHILOSOPHY

The Middle School/Junior High Division members are encouraged to be more participatory and less regulatory while introducing the Middle School/Junior High students, parents, and communities to the core values of educational based activities.

5200.1 A Middle School/Junior High institution is eligible for membership in the CHSAA division if the requesting administrators represent an educational public, private or charter institution. The institution must provide instruction for its students in a defined physical building or space dedicated to a multi-student instructional setting.

5300.2 Membership in this division is voluntary and schools remit a fee each year to retain divisional status.

Q1: What is included in the Middle School/Junior High Division membership?

- A1:
- a. Two Administrative Courtesy Cards
 - b. Tri-seasonal electronic newsletter
 - c. Up to ten complimentary NFHS sport rule books.
 - d. Entry to all "CHSAA" sponsored educational outreaches
 - e. Access to the CHSAA Middle School/Junior High coaches test (nominal fee)
 - f. CHSAA Middle School/Junior High Division membership banner
 - g. Access to participate in some CHSAA activities.

CHSAA POLICIES

1.

COLLEGE ATHLETIC RECRUITING ADMISSIONS

The Colorado High School Activities Association encourages the recruitment of its student-athletes by college and university coaches. To ensure that all recruitment is equitable, the CHSAA has made a special annual Courtesy Card for college and university coaches that must be purchased through the CHSAA office.

This card will provide access for the bearer to all CHSAA regular season and playoff events. It does not provide special seating or floor access at state events. Institutions may purchase as many as they wish. Coaches may also purchase admission tickets, but there is no free admission for college/university coaches.

2.

DRONES

The use of drones, also known as unmanned aerial vehicles, is prohibited for any purpose by any persons at all CHSAA-sanctioned events, unless express written permission is obtained: 1) from the host school district during regular season contests, or 2) the CHSAA for any postseason/playoff contest. This policy includes not only the restricted playing area of the venue(s), but also the physical confines of the entire stadium/field/arena structure. For the purposes of this policy, a drone is any aircraft without a human pilot on board.

3. EMERGENCY ACTION PLAN

Every member school is required to create a Venue-specific Emergency Action Plan (VEAP) for each site that the member school practices and hosts athletic contests. The VEAP must include location, emergency access, emergency contact information, appropriate emergency protocol and a listing of each protocol member's duties. This should be completed in the CHSAA Digital Platform.

An Annual VEAP training must take place no less than one time a year. It is highly recommended that a plan be in place for Marching Band/Band.

NOTE: Penalty for not submitting your VEAP's in the CHSAA Digital Platform shall be Restriction for your athletic department (Bylaw 2330.1)

4. POSTSEASON QUALIFICATION RANKING SYSTEM

The RPI shall be used for postseason qualification in all sports where teams need to qualify for a bracket. The formula used for all sports is as follows: $RPI = (0.30 WP * 0.40 OWP * 0.30 OOWP)$. Individual sports committees may determine how to seed their brackets, but the field must be set using the RPI.

5. CHSAA MEDIA OUTLET/REPORTER/PHOTOGRAPHER EXPECTATIONS

The proper use and issuance of all CHSAA media passes is the responsibility of the media outlet. By submitting your outlet's request for media credentials, the outlet is agreeing to the CHSAA Media Policies and agrees/certifies that:

- **CHSAA Media passes are the property of the Colorado High School Activities Association;**
- It has properly vetted its representatives and no representative for which a pass has been requested has been convicted of any sexual or inappropriate conduct with minors;
- Passes are to be used by working members of the media only;
- Any unauthorized use of the pass(es) will result in the revocation of current credentials and non-issuance of future passes;
- Provisional Passes will be issued at the discretion of the CHSAA and limited by outlet size and audience;
- Passes may be revoked by individual schools, school districts or CHSAA personnel for unauthorized use, or inappropriate actions;
- The outlet liaison has read the CHSAA Media Policies Handbook in its entirety and is familiar with its contents.

The CHSAA membership has a right to expect bearer of the CHSAA Media Pass to exhibit professional behavior, respect student privacy, provide truth, accuracy, fairness and impartiality in his/her/their reporting, and accept accountability for his/her/their actions while covering CHSAA events.

All CHSAA media rules and regulations apply to the use of this pass. Only the member pictured on the front may use this pass. Any misuse of this pass will result in the forfeiture of the pass for the individual and media outlet. The CHSAA Media Pass is the sole property of the CHSAA. Site directors and game officials have the final word on photographers' placement at events. This pass may be confiscated by school, school district and CHSAA personnel for any breach of conduct.

The CHSAA expects the bearer of the media pass to exhibit professional behavior, respect student privacy, provide truth, accuracy, fairness and impartiality in his/her/their reporting, and accept accountability for his/her/their actions while covering CHSAA events. The bearer is expected to adhere to all CHSAA media policies.

Any outlet which plagiarizes, or otherwise uses information from another out without appropriate attribution and without their express permission will be subject to forfeiture the privileges this pass allows.

The bearer of this pass has been certified by his/her/their media outlet that he/she/they meets all CHSAA requirements to use this credential. Further the outlet has accepted responsibility for the character and actions of the bearer. Please admit to all practices, regular season and playoff events within the CHSAA membership.

COVID-19 Pandemic Note: Schools and/or school districts will have the final word on how media may or may not access contests during this unprecedented time. CHSAA recommends no practice access be granted to maintain health and safety of all concerned. The decisions will be the sole determination of the school/school districts based on recommendations from local, county, state and federal health guidelines.

At CHSAA events, passes will be issued up to five days in advance of an event. After that, provisional passes may be accessed on site, with a letter from the assignment editor. Media members are expected to cooperate with these decisions.

6. INCLUSION & OCR DEAR COLLEAGUE LETTER ON TRANSGENDER STUDENTS

1. The Colorado High School Activities Association is committed to ensuring that all students have equal access and opportunities to participate in CHSAA sponsored activities and athletics.
2. Member schools shall ensure that all students have equal access and opportunities to participate in activities and athletics without unlawful discrimination based on disability, race, creed, color, gender, sexual orientation, religion, age, national origin, or ancestry.
3. The Colorado High School Activities Association recognizes the right of transgender student-athletes to participate in interscholastic activities free from unlawful discrimination based on sexual orientation. In order to insure appropriate gender assignment for purposes of athletic eligibility, a transgender student-athlete's home school will perform a confidential evaluation to determine the gender assignment for the prospective student-athlete. The CHSAA will review athletic eligibility decisions based on gender assignment of transgender student-athletes in accordance with its approved policies and appeals procedures.

The Colorado High School Activities Association (CHSAA) Board of Directors approved this policy and process to address the eligibility of transgender/transitioned/student-participants in CHSAA sanctioned activities/athletics.

For the purposes of this policy, the following definitions will apply:

1. The term "sexual orientation" means a person's orientation toward heterosexuality, homosexuality, bisexuality, transgender status or another person's perception thereof.
2. The term "gender identity" means an individual's internal sense of gender.

3. The term “sex assigned at birth” refers to the sex designation recorded on an infant’s birth certificate should such a record be provided at birth.
4. The term “transgender” describes those whose gender identity is different from the sex they were assigned at birth.
5. The term “gender expression” means external appearance, characteristics or behaviors typically associated with a specific gender.
6. The term “gender fluid” means denoting or relating to a person who does not identify themselves as having a fixed gender.
7. The term “detransition” means the cessation or reversal of a transgender identification or gender transition, whether by social, legal or medical means.
8. The term “covered entity” means any person, business, or institution required to comply with the antidiscrimination provisions of the law.
9. Unlawful harassment includes severe or pervasive conduct that creates an environment that is subjectively and objectively hostile, intimidating, or offensive on the basis of gender identity, gender expression, or sexual orientation. Prohibited conduct includes, but is not limited to, the following:
 - a. Asking unwelcome personal questions about an individual’s gender identity;
 - b. Intentionally causing distress to an individual by disclosing to others the individual’s sexual orientation or transgender status;
 - c. Using offensive names or terminology regarding an individual’s gender identity, gender expression, or sexual orientation; or
 - d. Deliberately misusing an individual’s preferred name, form of address, or gender-related pronoun.

Privacy

All discussions and documentation in each level of the process either by a member school and/or CHSAA shall be kept confidential unless the student and family make a specific request.

Procedures

The student’s member school will be the first point of contact for determining the student’s eligibility to participate in CHSAA sanctioned event(s). The student and parent(s)/guardian must notify the school in writing that the student has a consistent gender identity different than the student’s gender assigned at birth and list the sanctioned event(s) in which the student would like to participate. The consistent gender identity as stated in the school letter will be the gender recognized for the entirety of the students participation in CHSAA athletics/activities. (See Detransition Policy) A transgender student shall participate in accordance with their gender identity, and CHSAA Bylaw 2850.3 shall still apply.

The school *may* use the following criteria to determine participation:

- Current transcript and school registration information.
- A written statement from the student affirming their gender identity.

The school may consider but *may not* require the following information, if it is voluntarily provided by the student or their parent/guardian:

- Documentation from individuals such as, but not limited to, parents, friends, and/or teacher, which affirm that the actions, attitudes, dress and manner demonstrate the student's gender identity.
- Written verification from an appropriate health-care professional (doctor, psychiatrist, psychologist) of the student's gender identity.
- Medical documentation (hormonal therapy, sexual re-assignment surgery, counseling, medical personnel, etc.)

Gender Fluid:

Students that want to participate in CHSAA athletics and activities, must select one gender to participate. The process for gender identification and notification to the school is the same as stated above. Any subsequent detransition by a gender fluid student must also follow the detransition policy as stated below.

Detransition Policy:

Students that detransition after competing in their consistent gender identity at the high school level, must notify the school in writing of their intent to detransition and apply via written request to the school for further eligibility. The decision to approve the request will be made at the local level.

Areas of Awareness for Schools:

- Have a plan in place and be proactive.
- Use correct names/pronouns according to the student's self-identification and permit the student to dress according to gender identity and or expression.
- Allow restroom and locker room access consistent to gender identity.
- Educate teachers, counselors, coaches, administrators, parents and students on transgender inclusion and awareness.

7. SERVICE, THERAPY & INSTRUCTIONAL ANIMALS AT STATE CHAMPIONSHIP EVENTS

Definitions:

- Service Animal – Any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. (Service animals are specifically defined under the Americans with Disabilities Act (ADA) and its Amendments.)
- Therapy Animal – Also known as a companion or emotional support animal and is not the same as a service animal.

- Instructional Animal – Any animal used as part of the instructional process and as approved by the school administrator.

Animals Allowed at CHSAA State Championships Events

Only Service Animals (service animals are specifically defined under the ADA). Therapy and Instructional Animals are not allowed entrance at our state championships event, unless the facility is pet friendly.

General Guidelines:

- Owner/handler must remain with animal at all times while on site.
- Animal must be free of external parasites (fleas, ticks, and mites), and free of skin lesions.
- Owner/handler is responsible to clean up after animal.
- Animals must be monitored to ensure that they do not demonstrate any aggression towards humans, or other animals, or otherwise create a nuisance situation. An animal's aggressive, unprovoked or threatening behavior, and/or creation of a nuisance situation may necessitate its immediate removal from championships site property.
- Any request for animal to be on the competitive surface with the coach/athlete must be formally made with the CHSAA Administrator in charge of that sport/activity at least 48 hours prior to the competition start date. The animal cannot distract/interfere with competition in any way, or they will be relocated onsite to a less intrusive location.

8. NFHS NETWORK

The NFHS Network has the first right of refusal for all playoff events. If you would like to stream your game to another platform other than the NFHS Network, you can send in a request to Brad Cochi (bcochi@chsaa.org). If your request is accepted, you will pay a rights fee to CHSAA.

TOURNAMENT FEES - During regular season play, leagues and schools have the option to establish tournament fees with officials groups unless specified elsewhere in the above fee schedule. Those fees must be stated on contracts sent to officials prior to the tournament or noted in the Arbiter or other software system.

MILEAGE - 40 cents per mile round trip, zip code to zip code.

Exception see note 1. Note 1: The Confluence (except Campion); The 5280 (except Gilpin County); The Colorado 7 (except Conifer, Fort Lupton, Fort Morgan, Weld Central); The Jefferson County (except Evergreen), Denver, Continental, East Metro, Front Range (except Fort Collins, Loveland, Poudre and Rocky Mountain), Frontier (except Bennett, Clear Creek, Lake County, Middle Park and Platte Canyon), Metropolitan, and Centennial leagues and Broomfield, Denver Academy, and Denver Christian schools will not pay mileage between league cities, but will pay a mileage travel stipend of \$10 to each official between league cities per day of assignments. Colorado Springs schools will pay mileage travel stipend of \$10 per day of assignments to officials selected from the Colorado Springs Officials' Association. An official that is assigned to two or more contests at a given site on the same day shall be paid one travel stipend or reimbursement.

Only ONE driver will be paid the mileage reimbursement for each contest. It will be paid to the official on the crew who travels the farthest. Issues with multiple drivers must be solved between the officials and the assignor prior to the game. Crews are expected to carpool when traveling from area to area (for example from area 1 to area 2).

In lieu of per diem, a rider fee of \$10 is paid to officials, non-drivers only, who are riding on trips of 75 miles or more one-way.

It is RECOMMENDED that, during the regular season only, assigners assign officials to a contest whose travel miles to a school is less than or equal to 75 miles round trip, thus resulting in a payment of no more than \$30 for travel. If an official travels miles more than 75 miles round trip the official should be paid at the \$.40/mile rate as listed above unless other arrangements are made with the officials by the school.

INFORMATIONAL ITEMS:

In an effort to be eco-friendly and cost effective, it is expected that officials carpool to assigned contests.

Schools and/or their contracted assigners should pay officials within 30 days of the assigned contest. Timely payments are key factor in the retention of officials.

INDIVIDUAL MILEAGE BUFFER - Mileage will not be paid to an official in cases where the town borders between the official's whose town of residence is 20 miles or closer to and the host school if 20 miles or less. Full mileage (including first 20 miles) will be paid to officials who travel over 20 miles. This does not apply to the metro area officials described above that receive the \$2 travel stipend.

PRIORITIES - When a site or date change occurs, the officials originally assigned should be given the first chance to work the rescheduled game.

"NO-SHOW" - In all other sports, when one official is a "no-show", the other officials working the contest shall split 50% of the extra check. (Not to exceed 50% of standard fee).

Guidelines for "No-Shows" - Officials Associations must have on file with CHSAA a copy of their constitutions, rules, and by-laws that outline their disciplinary procedures for dealing with no shows as well as other CHSAA expectations. Schools should contact the CHSAA office and identify the officials so that the local officials associations can take action. Leagues and schools are encouraged to develop procedures for use in these situations as well.

ONE OFFICIAL WORKED CONTEST FOR VOLLEYBALL-

A single assigned or single self-assigned official to a contest will receive the posted single game fee. Exception: A Volleyball V/JV solo official shall be paid the single rate game fee and a half. Sophomore/Freshman shall be paid the single rate game fee.

GOOD FAITH - When a school has made a good faith effort to contact an official of a postponement or overbooking, no fee shall be paid to any official. That same official shall have the first opportunity to work the canceled contest. When an effort to contact an official of overbooking or cancellation has not been made prior to the time an official has left to work the contest, 50% of standard fee plus any travel allowance due will be paid to an official who shows up to officiate the contest. Once a game or match is started, the official is entitled to the entire game or match fee. If a game is postponed, the same or new officials will be paid an entire game or match fee.

STATEMENT OF CODE OF ETHICS COLORADO HIGH SCHOOL ACTIVITIES ASSOCIATION

In order to be of maximum effectiveness in serving and fostering the education of the students so entrusted to us and in promoting and supplementing the regular curriculum, it is the duty of all concerned with our secondary athletic and activities programs to . . .

1. Cultivate an awareness that participation in athletics and activities is part of the total educational process and as such, the coach/advisor should neither seek nor expect academic privileges for the participants.
2. Emphasize the proper ideals of sportsmanship, ethical conduct and fair play as they relate to the lifetime impact on the participants.
3. Develop a working awareness and understanding of all rules and guidelines governing competition, both in letter and intent.
4. Recognize that the purpose of athletics and activities is to promote the physical, mental, moral, social and emotional well-being of the individual participants.
5. Avoid any practice or technique which would endanger the present or future welfare or safety of any participant.
6. Adhere to policies which do not force or encourage students to specialize or restrict them from participation in a variety of activities.
7. Refuse to disparage an opponent, an official, an administrator or spectator in any aspect of the activity.
8. Strongly encourage the development of proper health habits; the non-use of chemicals, including alcohol, steroids, tobacco in any form and other mood-altering substances.
9. Exemplify proper self-control at all times, accepting adverse decisions without public display of emotion or dissatisfaction with the officials or judges.
10. Encourage all to judge the true success of the athletic and activities programs on the basis of the attitude of the participants and spectators, rather than on the basis of a win or loss.
